

Your Invitation To Worship

In Praise of Spring

Spring is the favorite season for many people, perhaps because the world seems to come back to life after its long winter dormancy. In some parts of the country, winter is so long and cold that we really are left to wonder how anything living outside could survive such drastic conditions. But then, every spring the robins return, the trees burst forth with greenery, and flowers bloom, seemingly overnight. From the first tender buds to the newest hatchlings, the new life of spring is

truly a vestige of creation and should remind us that creation is an ongoing process and the unfolding of God's beneficent plan. And although none of us fully understand God's plan, each spring as we witness the renewal of life on our planet, and simultaneously feel the life flow back into our veins, we know intuitively that it is good. At this time of year, we should remember to thank God for the return of spring and abundant life which it brings.
