SR. ENGINEER
Energy Efficiency Programs

Energy Advantage is a leading Energy Management Consulting Company involved in providing a full range of technology-driven, value adding solutions and services to clients in commercial, industrial and institutional sectors.
Energy advantage is looking for a candidate to join our team based in Burlington Ontario and help energy end-users significantly reduce their energy utilization, through the establishment of sustainable energy management programs. You will join a team of like-minded dedicated individuals who will be able to provide support, training and assistance as you participate in this dynamic and growing field.
Primary Responsibilities:
• Conduct on site energy assessments to identify energy savings opportunities and quantify these energy savings opportunities using engineering calculations and energy management guidelines
• Assist in concept development and implementation of energy efficiency programs for clients
• Direct building simulations for commercial, retail and institutional clients (DOE-2, EE-4, E-Quest)
• Provide monitoring and verification analysis for energy efficiency projects
• Provide energy consumption analysis for Baseline Reports, Quarterly Reports and Annual Reviews in conjunction with the Client Services and Operations Group.
Job Qualifications:
Technical Skills • Good knowledge of energy efficiency in commercial, industrial and institutional applications • Degree/ Diploma in an engineering discipline. **Performance Skills** • Good communication skills • Good organization and planning **Experience** • Computer literacy a must (Microsoft Office) • 5 to 10 years of industrial/ commercial/ institutional energy efficiency project experience • Experience dealing with government energy agencies and utilities.
Please mail or email resumes to:
Energy Advantage Inc.
5420 North Service Road
Burlington, ON, L7L 6C7
Attn: Energy Efficiency
Email: ee-jobs@energyadvantage.com
