

Milton Country Depot
Formerly the Co-Op

CHANGE OF OWNERSHIP

Country Depot®

I, Brenda Lazenby, the Owner of the Milton Country Depot, would like to announce that TSC Stores will be taking over the business in the very near future.

While this has been a difficult decision, TSC is committed to running the business in much the same manner to which you, our valued customers, are accustomed. You will see the same friendly and helpful staff, receive the same excellent service, and along with our standard selection of products, discover new items. There are also plans to give the building a much-needed face-lift.

I would like to take this opportunity to thank Milton and the surrounding areas for their loyalty and support of the business that my late husband, Bill, and I have received over the last 11 years. Also I would like to thank my staff for their hard work and dedication. Without all of you the business could not have been as successful.

The staff and I would like to welcome TSC to the community and ask for your continued support of the business.

Sincerely

Brenda Lazenby

- Lawn & Garden
- Pet Food
- Wild Bird Seed
- Farm & Equine
- Workwear
- Propane

WE'RE MOVING FORWARD ON SUSTAINABLE HALTON PHASE II - GROWTH CONCEPTS

Halton Region is developing a plan for building sustainable and healthy communities for generations to come. This growth management initiative is called **Sustainable Halton**. Halton Region's efforts will mean less sprawl, greater protection of farmland, better infrastructure, and more liveable communities.

In June of this year, Halton Region released five Growth Concepts that show where future homes and jobs could be located.

In September, the Region is hosting **four open houses** to discuss the five Growth Concepts. Come to an open house to learn about how the Region is planning for sustainable and healthy communities and how we will meet the Province's population and employment growth forecasts for Halton Region. We want to hear your views of the Growth Concepts. Your comments are important as we move forward on Sustainable Halton and further refine the concepts in the next phase of work.

If you are unable to attend, or want more information, please visit our website at www.halton.ca/sustainablehalton. Follow the links to the online workbook and give us your thoughts.

We look forward to hearing from you.

Help break the silence and save lives

Approximately 30 people die by suicide in Halton every year. Over 400 are hospitalized annually from attempted suicides. And for every suicidal death, at least six others are directly impacted.

September 10th was World Suicide Prevention Day. To commemorate the event, I urge you to visit the Halton Suicide Prevention Coalition's website, www.suicidepreventionhalton.ca. The site offers information on how to prevent suicide, where to go for help and ways to care for your mental health. A "Tell Someone" poster and fact sheet are available to organizations who would like to help raise awareness of this issue. For copies, call Halton Region at 905-825-6000, toll free 1-866-442-5866 or visit www.halton.ca/health.

Suicide is a complex problem, but it is preventable. As a community, we need to break the silence. By talking openly, we can save lives and reduce suffering.
