NOTICE OF FILING OF ENVIRONMENTAL STUDY REPORT

20 Side Road Realignment from Nassagaweya/Puslinch Townline to west of First Line, Town of Milton Class Environmental Assessment Study

The Regional Municipality of Halton has carried out a Class Environmental Assessment (EA) to address safety concerns on 20 Side Road (Regional Road 34) from Nassagaweya/Puslinch Townline to west of First Line (see map below). The study was conducted in compliance with Schedule C of the Municipal Class Environment Assessment (June 2000, Updated 2007), which is approved under the Ontario Environmental Assessment Act.

Following the December 5, 2007 Public Information Centre, the preferred alternative was reviewed in light of comments received and modified as required. Taking into consideration the comments that were received from the Town of Milton, regulatory agencies and the public, the recommended alternative includes:

- The realignment of 20 Side Road (Regional Road 34) within the study area at the reverse (S-shaped) curve, with a rural cross-section and delineated on-road cycling facilities.

The Environmental Study Report (ESR) has been prepared to document the planning and decision making process undertaken for this study. By this Notice, the ESR is being placed on the public record for a 30-day review period in accordance with the requirements of the Municipal Class EA. Subject to comments received as a result of this Notice and the receipt of necessary approvals, Halton Region intends to proceed with the detail design and construction as documented in the ESR. The ESR is available for review at the following locations:

Further information may be obtained from **Mr. Jeffrey Reid, C.E.T., Project Manager, Halton Region, 905-825-6000 Ext. 7556**. Please provide any written comments to Halton Region by Monday, October 27, 2008 (within 30 days from the date of this Notice). If concerns regarding this project cannot be resolved in discussion with Halton Region, a person or party may request that the Minister of Environment make an order for the project to comply with Part II of the Environmental Assessment Act (referred to as a Part II Order). Requests for a Part II Order must be received by the Minister, at the address below by Monday, October 27, 2008. A copy of the request must also be sent to the Region's Project Manager. If no request is received by Monday, October 27, 2008, Halton Region intends to proceed with detailed design and construction as outlined in the ESR.

Optometrist going above and beyond call of duty

Milton optometrist Dr. Susan Jany has set her sights on helping people half way around the world who desperately need eye care.

On Monday, Dr. Jany will donate all of the day's eye examination fees to help some of the estimated 300 million people in the developing world who are blind or vision impaired due to lack of an eye exam or pair of glasses.

"Here in Canada, we take things like eye glasses for granted," she said. "They're readily available to those who need them, but in many countries, optometrists and the equipment needed to diagnose problems with eye sight are very scarce and eye glasses are a

luxury all too often out of reach."

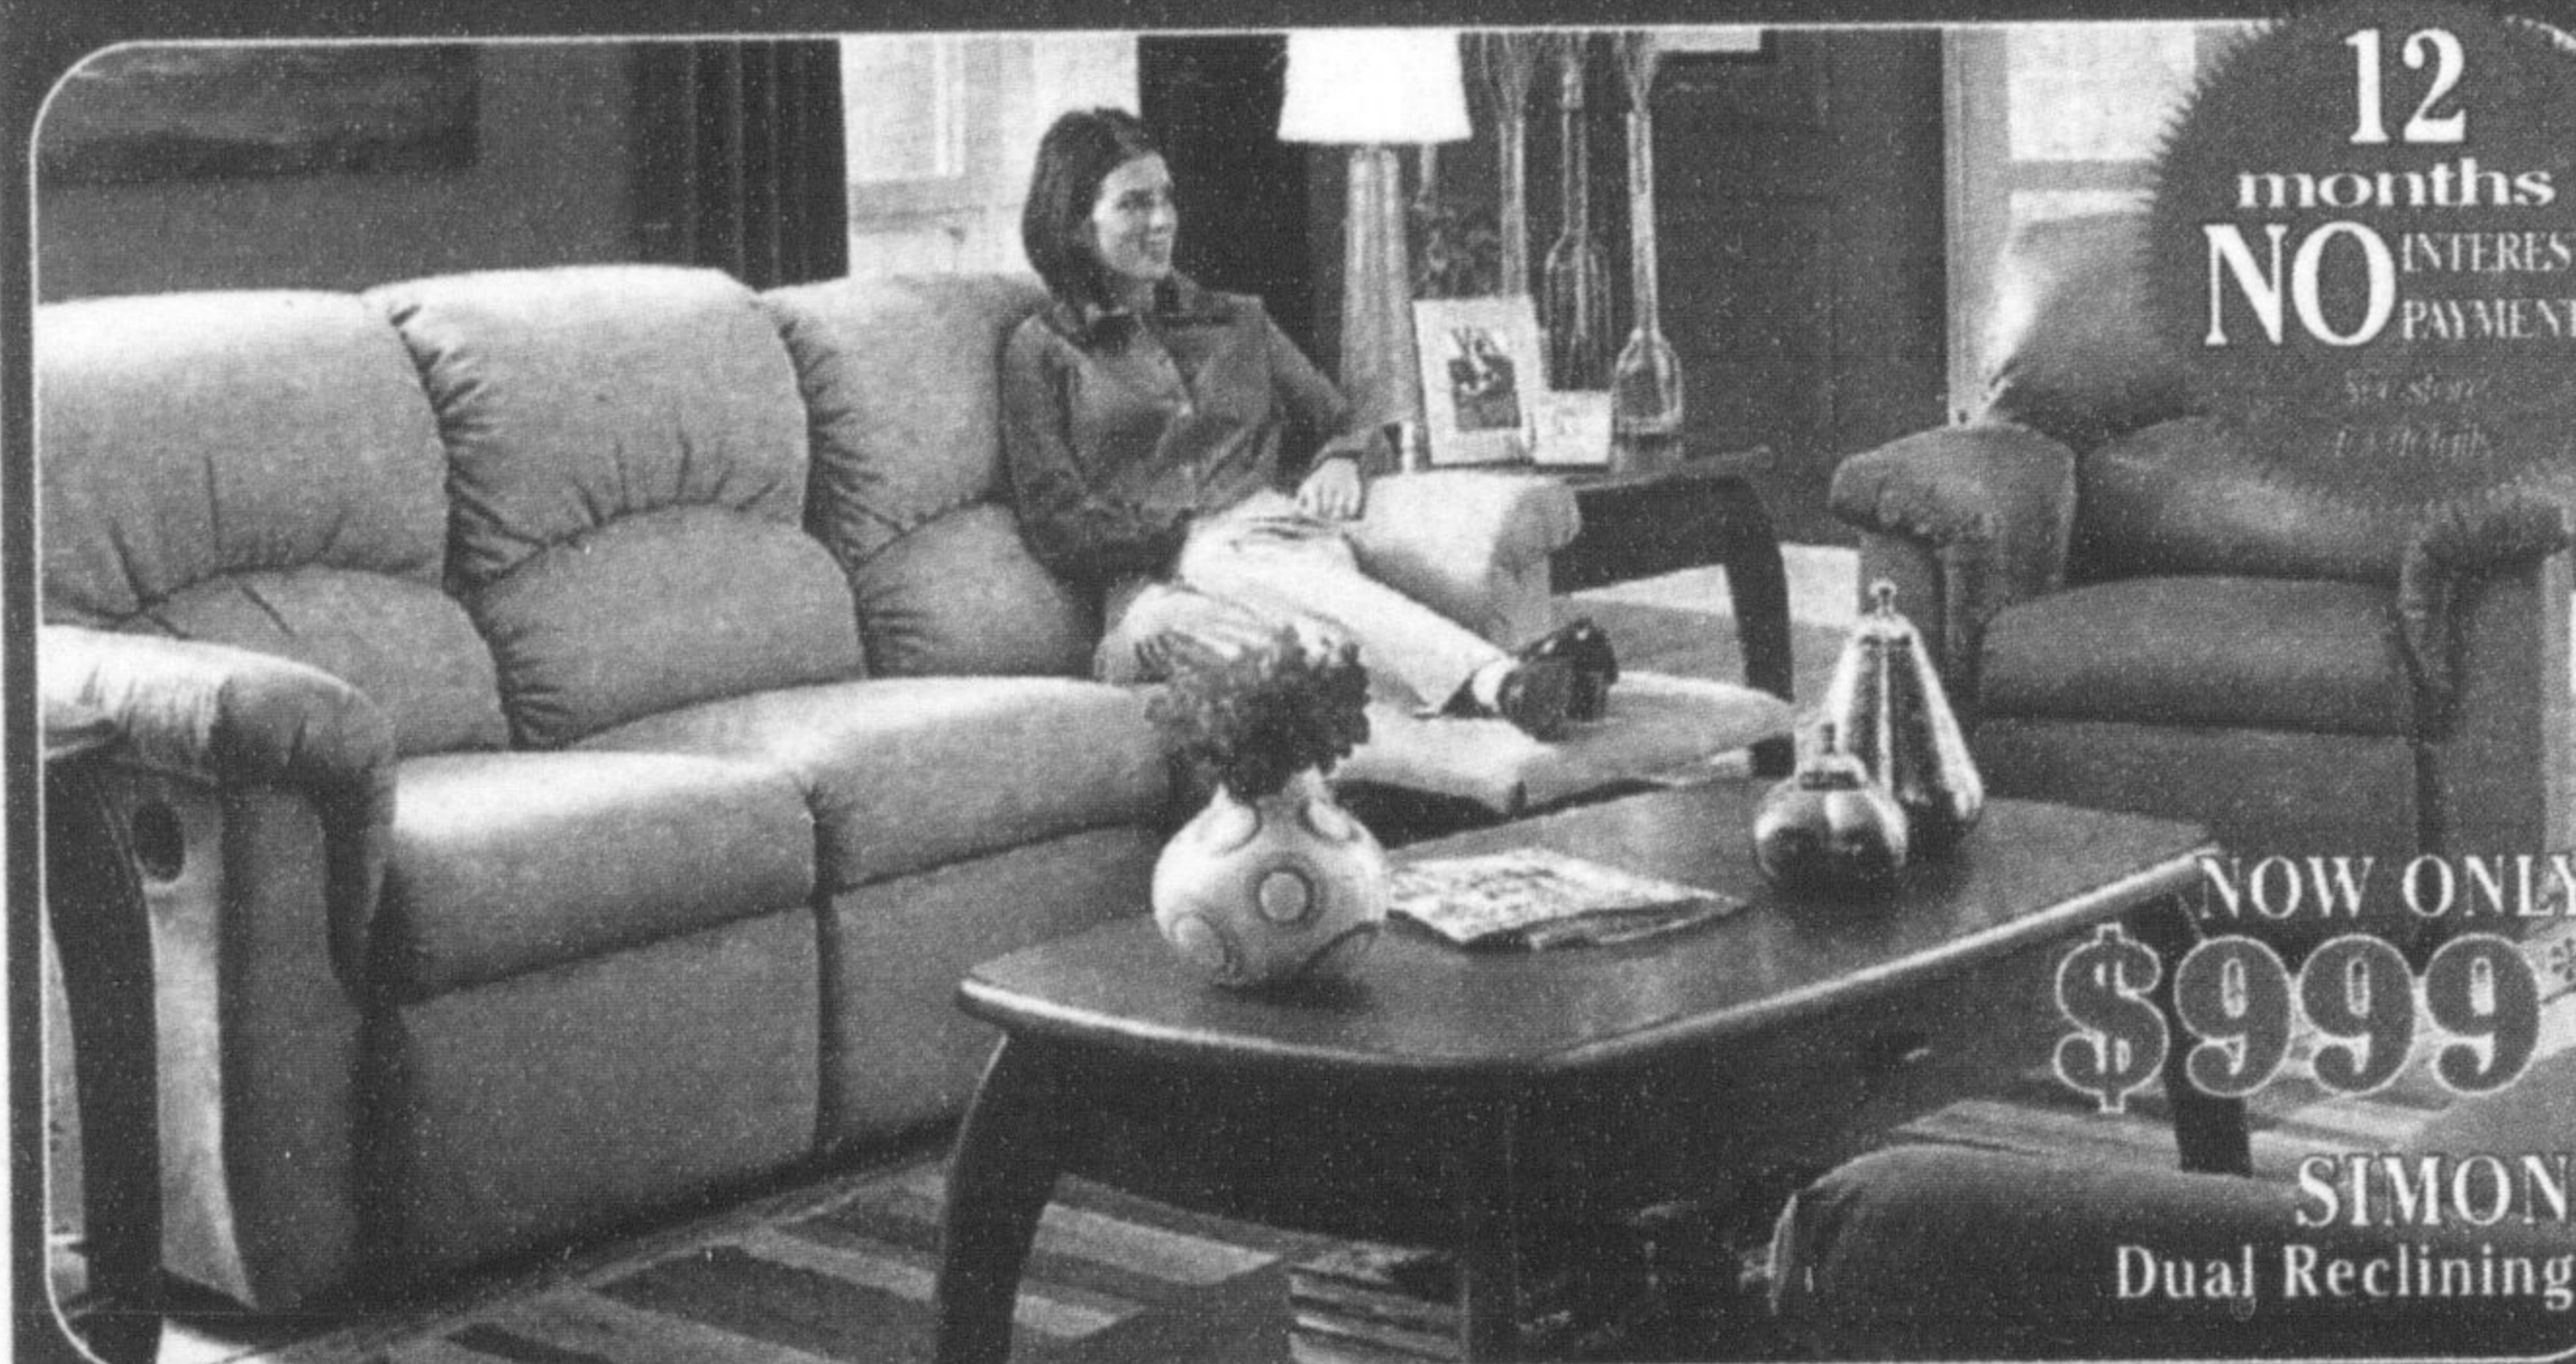

Dr. Jany's efforts come as part of the World Sight Day Challenge, an annual fundraising campaign of Optometry Giving Sight, which targets the prevention of blindness and impaired vision due to refractive error (the need for glasses).

She and her staff will be celebrating World Sight Day throughout October with the hopes of raising community awareness and garnering support for the cause from their patients.

Donations will be accepted in Dr. Jany's office throughout the month.
