Mrs. Claus prefers gifts in small boxes....

During the Christmas season, to give the gift of jewellery is still one of the best ways to show your loved one how much you care.

At Halton Hills Jewellery ...On Main, the friendly and knowledgeable staff is available to answer all of your questions. The business has been family owned and operated on Main Street here in Milton for over 20 years. They pride themselves on having shared countless holiday celebrations and special occasions. Customers are encouraged to visit and take their time looking at the in-store jewellery and giftware. In fact, they will encourage you to shop around.

Considerations:

- How often will the item be worn. If you're looking for a piece of jewellery meant to be worn often, try to find an item that is relatively simple and which fits their personality. If you intend

your gift to be worn only on special occasions, feel free to look for something more ornate.

- When looking for Christmas Gifts, you simply can't go wrong with 10 & 14 k jewellery in either white or yellow gold. If you are not sure which she prefers, look at the rings she wears every day.

- For Christmas gifts, earrings are perhaps the most popular choice, as they are small and simple, yet, when worn, they can have a profound effect on a woman's appearance. They frame the face and enhance her features.

- When purchasing a ring, there are many things to consider. Most importantly, what does the ring symbolize? Also, does your loved one want to be complimented on her jewellery, or would she prefer to remain inconspicuous?

- Beyond rings and earrings, other options include necklaces, bracelets, charms and pendants. The key, as always, is to match

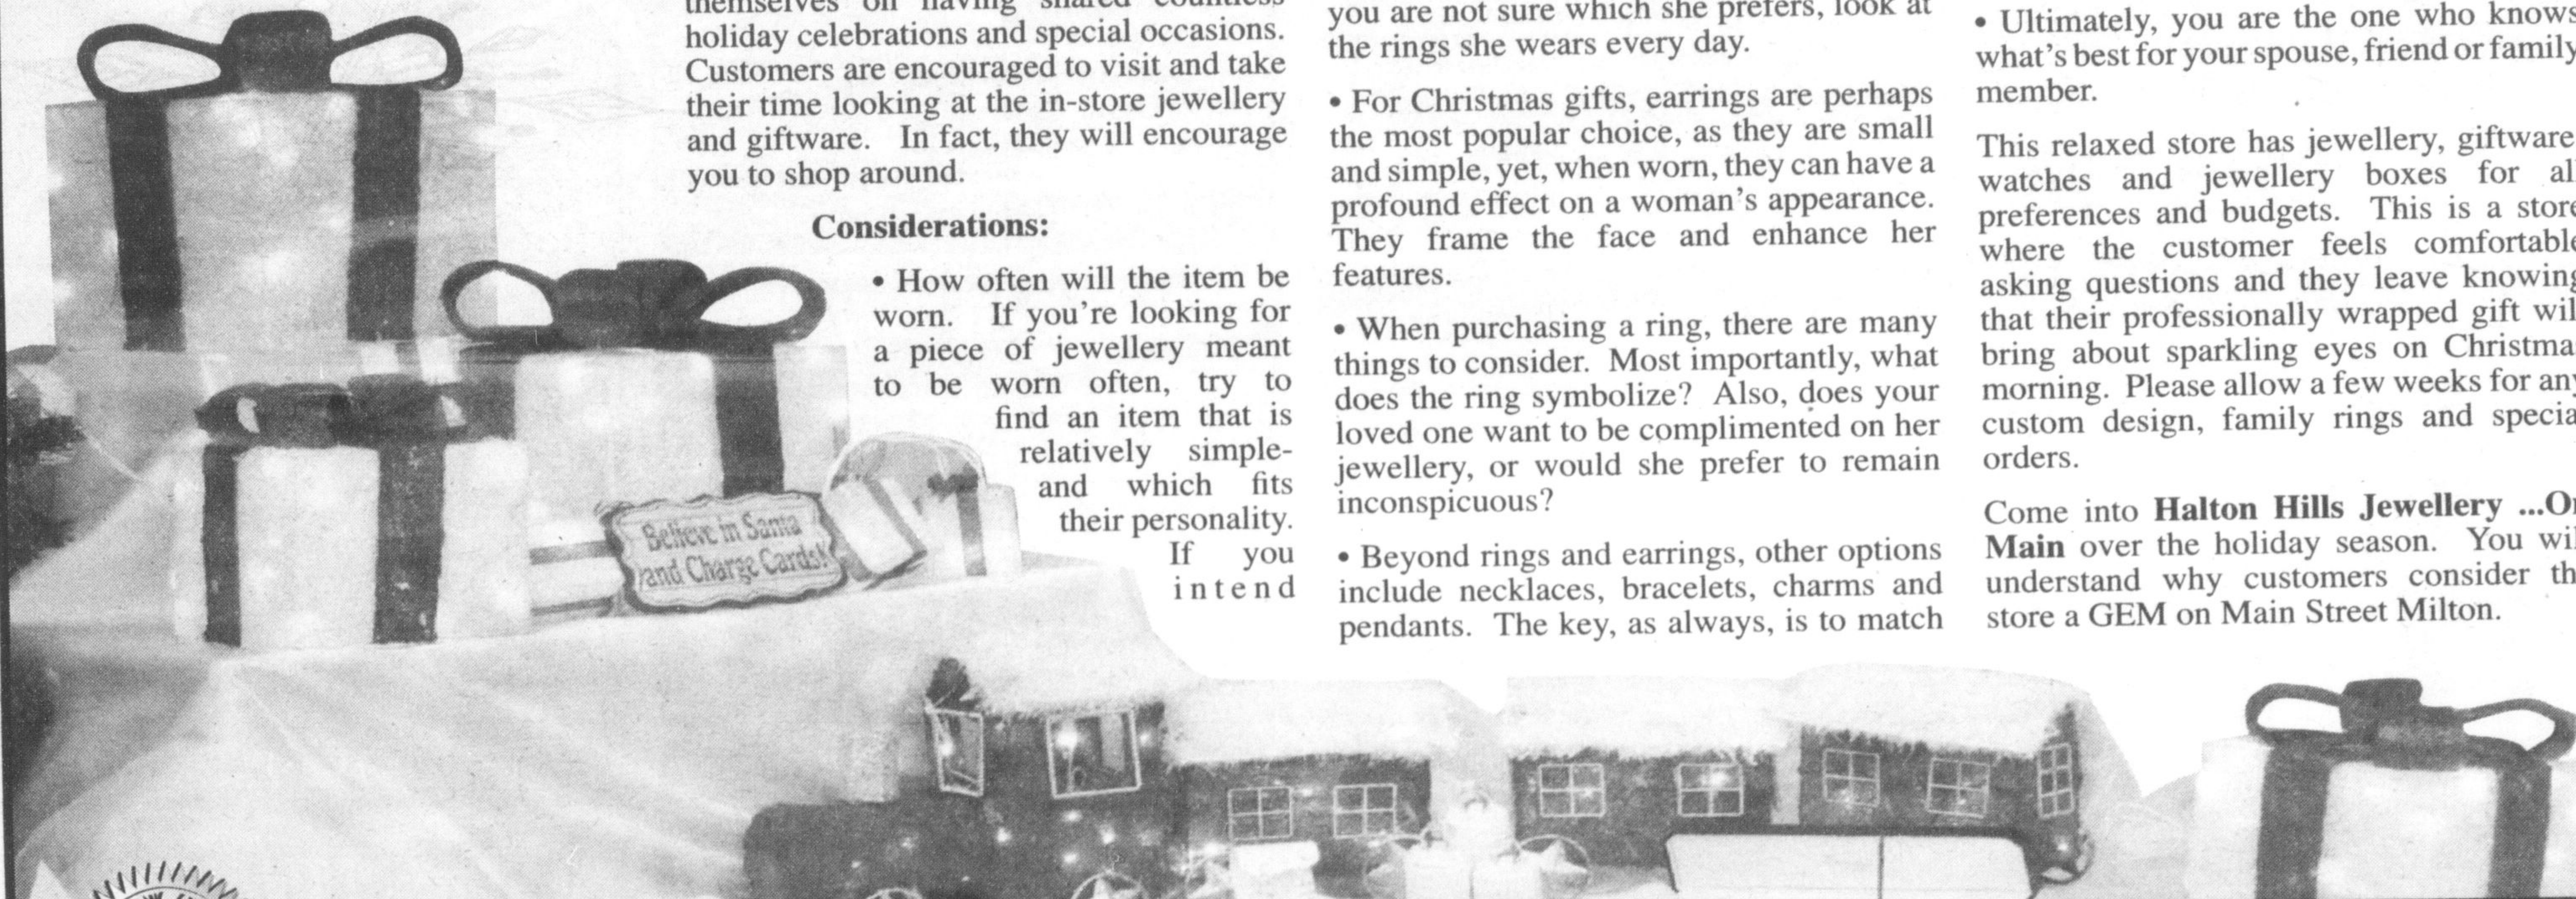

your choice of gift to her personality and tastes

- Have a firm budget in mind before shopping and do not feel pressured to spend what you can't afford. The best stores will respect your limits.

- Ultimately, you are the one who knows what's best for your spouse, friend or family member.

This relaxed store has jewellery, giftware, watches and jewellery boxes for all preferences and budgets. This is a store where the customer feels comfortable asking questions and they leave knowing that their professionally wrapped gift will bring about sparkling eyes on Christmas morning. Please allow a few weeks for any custom design, family rings and special orders.
