Ren's PETS Depot **PET Profile**

Dexter is hilarious, he is very silly. When we first brought him home he watched me pour a glass of water from the water cooler, a few minutes later he was standing at the cooler with his paw on the tap and drinking from the spout!! He figures things out quickly and does the same things as us.....we laugh alot with him. He is our best friend and we would never change a thing about him.

You Asked!

ANNA

Q: With the changing seasons and the drastic change in weather leaving the dog parks and trails muddy and wet. Is there any product that I can use to eliminate the dirt and grime off my dog quickly?

A: Your in luck, in fact we carry a large selection of waterless shampoos which consists of well-known companies such as Best Shot, Miracle Coat and Show Season along with others. Waterless shampoos are simple and quick! just wet the coat completely with the shampoo, massage until a silky lather appears and simply towel off, brush and let dry. There is also a multi-use towel called 'The Absorber' which is fantastic to use to dry the coats of animals and claims "to dry anything faster and easier". There is a product called 'The Paw Monster' which contains a super absorbent mitt that is extra soft and tough on dirt. The mitt can also be removed to transform into a rubber bristle electrostatic brush, which is fantastic on removing fur and picking up lint from fabrics. At Ren's Pets there is a product for every need to get you through the seasons keeping your pet happy and clean. Hope to see you soon.
