Royal LePage Meadowtowne releases app for iPhone and iPad

Milton / May 3, 2011

Royal LePage Meadowtowne Realty has launched an app to enable consumers to search for homes on their iPhone or iPad devices. This application is provided for free and lets consumers view all Meadowtowne listings anytime and anywhere. This app is also searchable at iTunes. Anyone who searches for Mississauga, Milton or Georgetown real estate will be brought directly to the application created by Hillside Software of Denver Colorado. Sellers listed with Meadowtowne will have the unique ability to have their listings featured through one of the greatest and far reaching mobile platforms in the world. Home buyers with iPhones or iPads will be first in the marketplace to have full mobile access to all of the company's listing inventory including

interior photos, Walkscores and GPS mapping. According to a news release from Apple on March 2, 2011, Apple has sold over 100 million iPhones and 15 million iPads. Royal LePage Meadowtowne Realty is a full service real estate brokerage with offices in Mississauga, Milton and Georgetown Ontario, Canada.

Create a 'garden of eatin'

With the cost of food on the rise, there's no better time to start growing your own organic herbs, fruits and vegetables. The best part about incorporating edible items into the garden (aside from the taste and health benefits) is that you don't need to be an avid gardener or have a large garden space to get started.

Herbs and vegetables can easily be grown right in your backyard garden or in containers on your patio or balcony. Certain items such as tomatoes come in a variety of vibrant colours and when mixed in with traditional flowers and plants, make for breathtaking displays.

Visit the nursery at your local Lowe's store (lowes.ca) and check out the wide variety of Bonnie plants and seeds to help you get started. Popular varieties to include are:

- Oregano
- Cherry tomatoes
- Sage
- Peppermint
- Dill
- Thyme
- Peppers
- Seed variety packs
- Fruit bushes
