Although most public pools are monitored by lifeguards, that doesn't mean you can let your guard down. Ensure your children's safety by following these tips:

- Supervise your children at all times.
- Make sure your children wear sunscreen.
- Insist your children read and follow the posted rules.
- Teach your children to respect others.
- Enroll your children in a swim class.

If you have your own pool at home, you have even more responsibilities. Follow these additional tips to keep your children safe:

- Install a fence around the pool and keep all entrances to the pool locked when not in use.
- Purchase lifesaving equipment for the pool and keep it next to the pool.
 - Install a phone in the pool area and post a list of emergency phone numbers next to it, along with CPR instructions.
- Allow children to swim only under the supervision of an adult who knows how to swim and is trained in CPR.
 - Cover your pool when it's not in use.

Summer is officially here. The temperatures are rising and the water is heating up. Keep your children cool... take them to the pool!
