

Come See The SPIRIT of New Thinking.

modern efficient new urban simple practical fresh

New Detached Homes From \$259,990

What do we mean by new thinking?

We mean homes that maximize the livable area. We mean **clean** interior lines with box-outs and bulkheads virtually eliminated. We mean **simple** things like aligning load bearing walls to simplify the structural elements.

We mean lots of variety in floor plans chosen for their simple functional **efficiency** and pleasing aesthetics. We mean practical, affordable solutions for **modern** times. New thinking for a new age. Thank you.
