**Makeover tips for a greener, cleaner home**

(NC)—Whether you're starting from scratch, or just making some décor changes, the laundry room is always a fun design challenge and offers plenty of opportunities to express your signature style. When making your design choices it's important to focus on what you can do to make your laundry space a bit more environmentally friendly. With little effort you can get your clothes clean and green thanks to an eco-friendly laundry room makeover.

Design expert Sarah Richardson has a few easy recommendations to get you started. Here's a checklist things you'll need to get green in the laundry room:

- Front loading high efficiency washer
- Energy Star rated dryer
- Clothesline or hanging device
- Energy efficient lighting
- Recycling bin for empty detergent bottles and cardboard

Sarah Richardson is an internationally known designer and TV personality, the creative vision behind Sarah Richardson Design and the country's most popular design TV shows including, room service, design inc., Sarah's House and her most recent adventure, Sarah's Cottage.
