Location, Location, Location?

Where You Live Can Impact Your Car Insurance Rate

How Much Is Your Postal Code Costing You?

We've all heard that with real estate, the biggest driver of your success is location. Can the same be said for getting the lowest car insurance rate? The answer is — sort of.

Insurance companies do use a wide variety of risk factors when setting premiums, and where you live is one of them. If you live in an area that a given insurance company knows to have a high claims rate, all things being equal, you can expect to pay more than someone living in an area with a lower claims rate.

Should I Consider Moving To Get A Better Rate?

Probably not. The truth is, even if you did move, there's no guarantee you'd get a lower rate, since each insurance company sets its rates independently and can change them up to 4 times per year according to a wide variety of factors of which your location is only one.

What's The REAL Secret to Lowering Your Rate?

The simplest and easiest thing you can do to lower your rate is to SHOP AROUND. Why? Because the rates charged by different insurance companies, to insure the same driver, with the same car, for the same coverage, can vary by hundreds and even thousands of dollars.
