

# Draw for early Big Bike entrants

While the Heart and Stroke Foundation's Big Bike fundraiser is several months away, teams that sign up soon will be entered to win a pair of Toronto Raptors tickets.

The Halton chapter will hold a draw Monday, March 1 for all new and returning Big Bike teams that register by Friday.

The Big Bike fundraiser sees teams of 29 riders pedal through the community in sup-

port of heart disease and stroke research.

Registration forms can be obtained by contacting Loren Black at (905) 634-7732, ext. 22, or lblack@hsf.on.ca. Signed registration forms must be returned by fax at (905) 634-1353, scanned e-mail at lblack@hsf.on.ca or in person at 4391 Harvester Rd., unit 7, in Burlington by 5 p.m. Friday to be eligible for the contest.

GRAHAM PAINE / CANADIAN CHAMPION

**BRAVING THE COLD:** Doug Tremble removes snow from the outdoor rink at Rotary Park before playing some hockey on a recent sunny but cold weekend. Many families taking in skating at the rink didn't seem to mind the frigid temperatures.

Milton's Choristers present... **SATURDAY, FEB. 20TH - 7:30 PM**

**Knox Presbyterian Church \$20 pp**  
170 Main St. E., Milton

Tickets available at: Milton Photo (Milton Mall), McCuaig Insurance (208 Main St. E.)  
Troy's Diner (295 Main St. E & Best Western Hotel) or www.miltonchoristers.com

**PUBLIC NOTIFICATION AND NOTICE OF PUBLIC MEETING  
CLASS ENVIRONMENTAL ASSESSMENT  
NEW 230KV / 27.6KV TRANSFORMER STATION  
REGIONAL MUNICIPALITY OF HALTON, ONTARIO**

**The Study**

Oakville Hydro Electricity Distribution Inc. (Oakville Hydro) is a local electricity distribution company in Ontario and is responsible for electrical power delivery to homes and businesses in the Town of Oakville. Oakville Hydro is proposing to build a new transformer station to increase the supply of electricity to the Oakville Hydro service territory. The proposed station will step-down electricity from Hydro One's 230kV high voltage transmission system to lower voltages, so that it can be distributed through Oakville Hydro's electrical system to consumers. The new station is required by spring 2011 to maintain reliable supply and anticipated growth to the Oakville Hydro service area.

The project study area encompasses the Town of Oakville and Town of Milton, north of the 407 and south of Lower Base Line Road, where existing 230kV transmission corridors are present for potential connection. Oakville Hydro has proposed a site off of 6th Line Road (see map).

The project is being undertaken in accordance with the Class Environmental Assessment for Minor Transmission Facilities (Class EA) process approved under the Ontario Environmental Assessment Act.

**Public Information Centre**

Oakville Hydro is hosting a second Public Information Centre (PIC) to provide interested parties with an opportunity to learn more about the project and provide input to our project team. The PIC is to be held as follows:

**Date:** Thursday, March 4, 2010  
**Time:** 5:30pm - 8:30pm  
**Location:** SVCC Banquet Hall - Arbour Room  
1280 Dundas Street West  
Oakville Ontario L6M 4H9

In accordance with the Class EA, draft copies of the Environmental Study Report (ESR) will be available for public review and comment for a 30 day review period from Thursday March 4, 2010 to April 5, 2010 at Oakville Hydro's Head Office located at 861 Redwood Square, Oakville, Ontario L6J 5E3 as well as at the PIC on March 4. Comments are to be submitted to IBI Group at the address noted below.

It is the goal of Oakville Hydro to resolve all comments submitted. Patrick Garel and Jeff Mocha (please see contact info below) will be available throughout the 30 day review period for information to aide in achieving this goal. In the event stakeholder comments or questions are not resolved by Oakville Hydro within the 30-day period, the stakeholder can submit a written request to the Minister of the Environment to "bump-up" the project to an individual environmental assessment in accordance with Part II of the Ontario Environmental Assessment Act. "Bump-up" requests must be received by the Honourable John Gerretsen, Minister of the Environment at 135 St. Clair Avenue West Toronto, ON M4V 1P5 in writing, **no later than 5:00pm** on April 5, 2010. A copy of the request must also be sent to IBI Group at the address noted below.

Information will be collected and used in accordance with the Freedom of Information and Protection of Privacy Act, solely for the purposes of assisting Oakville Hydro in meeting the requirements of the Environmental Assessment Act. This material will be maintained on file for use during the study and may be included in the project documentation. With the exception of personal information, all comments will become part of the Public Record.

## Curves holds food drive

Curves is encouraging Milton women to pitch in next month and help out local families in need.

The fitness franchise on Bronte Street will hold its annual food drive throughout the month of March, with non-perishable items and monetary donations being collected for the local food bank.

Curves members who donate a bag of groceries or make a minimum donation of \$30 will receive a reusable Curves grocery freezer bag.

Non-members who do likewise between March 1 and 13 will be able to join Curves with the initial enrolment fee waived.
