Rate Roulette

Are You Gambling With Your Car Insurance Rate?

What Is Rate Roulette?

Roulette is a popular casino game in which players gamble on where a ball will land on a spinning wheel marked with a range of numbers. As long as you play within your limit, the game can be fun, even though the odds are stacked against you picking the winning number with every spin. Rate Roulette is a game played by drivers who gamble they will find the lowest rate on their car insurance by sticking with a single insurance company. The difference? Most drivers don't even realize they are playing and gambling with their car insurance rate in the first place, mistakenly figuring they've already picked a winner and the lowest rate with their current insurer.

What Are My Chances Of Finding The Lowest Rate?

The odds against you picking the winning number on a single spin of the Roulette wheel are 37 to 1. Sadly, the odds against a driver picking the insurance company with the lowest insurance rate for their profile aren't much better. Why? Because there are over 30 insurance companies to choose from and the rates each of them charge to insure the same driver, with the same car, for the same coverage, can vary by hundreds and even thousands of dollars. The only way to ensure you pick a winner at Rate Roulette is to play the whole table...and the only way to do that is to SHOP AROUND for the lowest rate..
