

NOTICE

LARVAL MOSQUITO MONITORING AND PESTICIDE USE

407 ETR Concession Company Limited will conduct larval mosquito monitoring from May 24 to September 30, 2010 and, as may be required, a larviciding program from May 31 to September 30, 2010. 407 ETR is undertaking these measures to meet any requirements of local Medical Officers of Health to control larval mosquitoes to prevent their development into potential carriers of the West Nile Virus. Applicators, licensed by the Ministry of Environment, or trained technicians will apply the larvicide in storm-water detention ponds and catch basins on Highway 407 ETR throughout the municipalities of Halton, Peel, York and Durham only where it is determined prudent to do so.

The pellet formulation of the larvicide VectoBac 200G (Bti), Pest Control Products Act No. 18158, will be placed into storm-water detention ponds and the briquette formulation of the larvicide Altosid (Methoprene) Pest Control Products Act No. 27694, will be placed into catch basins on Highway 407 ETR throughout the municipalities of Halton, Peel, York and Durham, only where it is determined prudent to do so. For further information,

Summer activities with the kids need not be costly, over the top

Question:
 Summer is fast approaching. Can you suggest some educational things to do with my child over the summer?

Answer:
 Contrary to popular belief, summer activities need not be expensive or over the top. Thinking back to our own

Jenn

childhoods, it was often the family camping trip or running through the sprinkler with friends that we remember the most.

Parenting on the same page

with DANIELLE LALONDE

Gardening, for example, can be a fantastic family activity full of lifelong learning skills and bonding experiences. We often look at yard chores as something to “get done” without the help of little hands, but young children are often thrilled to help out by planning, planting and especially harvesting the bounty of the garden.

Having your child help grow vegetables is also a great way to get them to try new foods.

The family also doesn't have to venture far from home to enjoy memorable family activities. Halton is filled with gorgeous conservation

areas, perfect for hikes and picnics. There are also lots of pick-your-own farms for berry and apple picking. Couple this activity with baking a pie or muffins with your child and they will now understand where their food comes from.

Remember that the most cherished activities don't have to cost a penny and usually are special because a parent is doing something out of the ordinary. So next time your children are drawing with chalk on the driveway, why don't you join them? Chances are they will remember it for life.

Danielle Lalonde, RECE, B.A., is the mother of two and a parenting educator with the Ontario Early Years Centre, North Halton (www.merc.on.ca). The centre provides support and resources to assist parents and caregivers in their roles. The centre also provides early learning experiences for children up to six years of age.
