

**To the Electorate
of Halton County:**

This week I would like to picture the situation in which we find ourselves.

You all know we have been laboring under what is known as the credit system, a system that works only too well for the few; it is a debt creating system that creates debts, debts that cannot be paid through its own system. Over 80% of our money is borrowed money.

We have for the past seventy years been turning first one group out of parliament and putting another in, but have steadily gone on farther and farther into debt. True the tax has been shifted first one place and then another, our politicians magnifying the relief each time keeping the people in the dark.

Since 1918 Canada's interest bearing national debt has increased by approximately \$1,100,000,000. Canada, according to the latest figures in the year book, owes over \$6,000,000,000. If the farm mortgage debt was added to this it would swell to \$7,000,000,000. Our Dominion Government has \$423,000,000 of maturing obligations this year.

In 1916 the interest payments of Canadian provinces were only \$7,800,000 per annum.
In 1931 they were \$36,700,000.
In 1932 they were \$66,000,000.

A most astounding situation, but the absurdity has increased, when we think of the obligations that our children will be asked to face in 1960.
Now the question arises, shall we people of to-day rise to the situation and assume our responsibility and attempt to correct this mistake or shall we sit down and let it drift for the future generation to struggle with.
We know our present system of government in Ontario is inadequate and most expensive, but the vital question is the question of debt which sooner or later must be faced.

I am firmly convinced that the only sane thing to do is to stop quibbling about the mistakes of the past and settle down to planning a future that will bring our people out of the mess we are in.
We have in the past been electing men to government by means of the machine and found ourselves helpless. The time has arrived when we must have men in our Legislative Assembly who are free to think, speak and vote in the best interests of the people.

The C.C.F. gives you this opportunity on June 19th.
Sincerely yours,
C.C.F. Candidate,
R. S. HEATHERINGTON.

HORNBY WOMEN'S INSTITUTE

The Hornby Women's Institute held their annual meeting at the home of Mrs. C. Kennedy. The roll call was answered by paying of fees, at which time twenty ladies joined for another year. Mrs. G. Robinson was named delegate to attend the meeting of the Halton Musical Festival in May. It was suggested a lawn social be held in the near future.

The secretary-treasurer's report showed that during the past year, donations had been made to Milton Rest Room, Gordon Home, Chicago Trip, and a donation to help teach music in the school, three bank books to new babies, and relief to three needy families, including Christmas cheer, quilts, dishes and clothing.

During the year there were held 11 regular meetings, a picnic and a corn roast, at which time 11 papers and addresses were given; also a debate, a cooking class was held late in March with 38 ladies registering.

The officers for 1934-35 are as follows: President, Mrs. Hawes; pres. Mrs. Harry Robertson; 1st vice-pres. Mrs. S. Cordingley; 2nd vice-pres. Mrs. Downs; sec.-t. eas. Miss Ella Peacock.

The mosquito crop is one that does not seem to have been reduced by a drop of rain.

Just a few short weeks until the long summer vacation for the school teachers and pupils.

T. A. BLAKELOCK
Liberal-Progressive Candidate
for Halton County

To the Electors of Halton:

We have now reached the final week of the campaign. You have heard so many arguments pro and con that I know you must be almost bewildered to know who to believe.

The Liberal speakers have given many instances of gross extravagance, high salaries to men on part time jobs, loss in sale of bonds at less than the market price, the barn and silos at Orillia and many other instances. The Conservatives have admitted that the public debt has been doubled in the last ten years, but contend that the expenditures were necessary.

When you mark your ballot on June 19th it will be for you to decide. I suggest to you that this time you would do your own thinking. Do not let your party or your party leader do your thinking for you.

We have been doing too much of this kind of thing in the past, too easily led. Think back over the last five years and make up your own mind as to whether you are satisfied with your circumstances, with the way in which you have been governed. I do not suggest that the present Henry Government is by any means wholly to blame for present conditions in Ontario, but I do contend that the Henry Government has failed to give leadership and that conditions have been made very much worse by the reckless and careless extravagance of the government.

What right have they to fill their own pockets with increased salaries when a large percentage of the people of the Province are nearly destitute? What right has the Premier of the Province to make a deal for the Abitibi power at a price so far above the market price when the result would be a personal gain to himself, when he himself actually held \$25,000.00 of the bonds?

We are now assured by the Henry Administration that prosperity is here again. You know from your own circumstances how true that statement is. There are men making money to-day, plenty of it; more than they are entitled to, but this is not true prosperity. Prosperity cannot be measured by car loadings, bank clearings, or any such rule. Prosperity can only be measured by the degree in which ALL OF THE PEOPLE of this country share in the work of producing goods and by the degree also in which ALL OF THE PEOPLE share in the use and consumption of the goods produced.

We cannot have any true prosperity with 500,000 persons out of employment and on relief. No constructive steps have been taken by the government to cure unemployment or the unequal distribution of wealth.

You have read in the newspapers of the investigation now being conducted regarding the Robert Simpson Company. The financial leaders who owned this company received back from the public three thousand dollars in cash for every one hundred dollars invested, and in addition to this received dividends on the original investment of over forty per cent annually. At the same time that this was going on the company was paying its help starvation wages.

Girls were being paid \$8.00 per week. Isn't this what is wrong with the world to-day?

Mr. Hepburn has promised to clean house if elected. He has promised to give constructive leadership in an honest attempt to cure present ills. If elected I will give him my whole-hearted support.

Yours faithfully,
T. A. BLAKELOCK.

Milton, Ont., May 26, 1934.
Mr. T. A. Blakelock,
Oakville, Ontario.

Dear Sir—We, the unemployed of the Town of Milton, finding it impossible to secure work, interviewed Mr. T. A. Blakelock asking his efforts to secure us work on the new highway.

After hearing our appeal, Mr. Blakelock said: "Boys, I will do all in my power to get you on the job." Two days later he advised us of his having appealed to the Highways Department through the Ontario Employment Service and was promised work for all the unemployed able to work.

Today one-half of our number are at work on the highway and we expect the remaining number to receive an order to report for work at any time. Knowing you are very busy, we appreciate your efforts in using your valuable time.

We feel very grateful to you for your kindness and wish to convey to you our most hearty thanks.

IT PAYS TO ADVERTISE.

Here are a Few Reasons why you should Vote for W. S. Davis

He is a self-made man, and Canadian-born. He has lived in Oakville all his life, and is keenly interested in the welfare of the people of Halton. At the age of fourteen, upon the death of his father, he started out a clerk in the local Post Office and Telegraph Office, where he remained for seventeen years. After leaving the Post Office, he started out for himself in the Real Estate, Insurance and Mortgage business, which he and his son carry on successfully in Oakville at the present day.

He served in the Oakville Council for many years, during seven of which he sat in the Mayor's chair.

He is active in all public and church affairs, and is always willing to assist in any good cause. Last year he was Chairman of the Welfare Campaign Committee, when he and his loyal band of workers raised approximately six thousand dollars to help those who were unemployed.

He is known as a tireless worker and he never stops until he has completed what he has set out to accomplish.

If you elect him on June 19th, you will elect a man of high ideals, sound common sense and integrity, and you may be confident that he will do everything in his power to bring your interests before his fellow-members of Parliament.
