## AT EVERY INTERSECTION BE CAREFULI

HERE were over 800 bicycle riders killed or injured in Ontario last year.

Bicyclists, especially children, are often careless. This simply means that drivers of motor vehicles must be twice as careful. Remember that you are in the beavier vehicle.

At stop streets . . . stop! Discipline yourself when you drive. Cut down on speed, especially at night. Make sure that your brakes, tires and lights are effective . . . otherwise, some day, you may find yourself in serious trouble.

IT IS BETTER TO BE SAFE . . . THAN SORRY!

Ontario must start THINKING safety!

In Ontario, during 1934, there were nearly 10,000 auto-mobile accidents.

512 people were killed 8,990 people were injured

... a considerable increase over 1933. It must be evident to all thinking people that this must stop.
