ELECTION RECOUNT

At ten o'clock Thursday morning, Jan. 23rd, His Honor Judge Munro will begin a recount into the votes cast for deputy reeve in the municipal election in the Township of Ebequesing on Jan. 8th last.

According to the declaration of the Returning Officer for the township Nelson Robinson, the deputy-reeve elect, was declared elected over Wesley Murray, the other candidate, by a majority of seven votes. It appears that an extraordinary number of ballots was rejected throughout the township and Mr. Murray, the defeated candidate, applied for a recount. His application was granted and the recount will be held at the Court House on the above mentioned date. There has not been a recount in Ebequesing in many years.

Workmen's Compensation Discontinued for Employees of Smaller Municipalities

Change Took Effect on Jan. 1st in Urban and Rural Places

(Burlington Gazette)

Under a change in the regulations of the workmen's compensation board all municipalities will be compelled to pay accident and other claims covered by the board out of their own funds. It was announced last Friday by Earl Hutchinson, vice-chairman of the board on January 1st.

The change will not affect Hamilton, Toronto or other large cities, but will apply to a large number of smaller municipalities throughout the province. In making the change the board reverts back to the policy which was carried out prior to 1930.

The smaller municipalities affected will not contribute as heretofore to the general fund of the board under what is known as schedule 1 of the regulations, nor will claim for injuries to any of their workers be paid out of the board funds in the future.

The town clerk received the notification on Saturday and immediately notified Mayor Watson, who took the matter up with W. Wiggins, town insurance broker, and arranged to insure all town men with private companies. Locally, the men will be just as well protected under the new arrangement. The premiums formerly paid to the workmen's compensation board will now be paid to a private company, and possibly a small saving will be effected in premiums.

Federal Commission Favored for Game

That game and fisheries conservation throughout Canada be divorced from politics and under a non-partisan federal commission and organized to maintain and increase Canada's tourist traffic revenues, is urged by J. A. Griffiths, former game warden of Halton and member of the Halton Game Protective association directorate.

A solution advanced by Mr. Griffiths for getting such a federal commission out of politics is that its personnel be appointed by the chief justices of Canada's nine provinces, most of whom are anglers, including Sir William Mulock.

"Our game and fisheries problems should be controlled with regard to Canada as a whole, yet with powers to make regulations suitable to various districts."

At an approaching meeting of the Halton Game Protective association steps will be taken to further an appeal for zone game regulations.

"Too often," Mr. Griffiths points out, "a regulation that is vital to game protection in one section is thrown out because of the hardship it would work on another section."

"The principle of regulations by zones is already established in Ontario, as regards open seasons; but it might well be extended more generally."

E. HARROP CHOSEN PRESIDENT FOR THIRD TERM

At the annual Liberal-Progressive Association meeting in the town hall here Tuesday evening, Edwin Harrop, Milton, was re-elected president for the third consecutive year.

Other officers are: Vice-presidents, Andrew Dale, Georgetown; P. O. Rhynas, Burlington; W. N. Robinson, Oakville; Treasurer, Archibald Galbreith, Palermo; Secretary, Thos. G. Ramsbaw, Milton.

Thos. A. Blakelec, M.L.A., of Oakville, who introduced Hon. Duncan Marshall, pointed out that he honestly endeavours to serve all his constituents on the same basis of square dealing.

Declaring that the Ontario Liberal government, apart from relief expenditure out of receipts, had a "normal condition" surplus of \$5,000,000 for the first nine months of the current fiscal year, Hon. Mr. Marshall, Ontario minister of agriculture, delivered the principal address.

Mr. Marshall also announced early creation of "class free areas" in Ontario to stimulate breeding of beef cattle. He predicted a huge demand for Canadian beef in the United States and Great Britain for years to come.

Hughes Cleaver, M.P., elect, in similar vein urged his need of strict constructive criticism during his work at Ottawa and as federal member of the riding.

Wise Action by Simcoe

Partly as a result of improving conditions, but largely by removing the names of all unmarried men from relief lists, the town of Simcoe got through with it. If the expenditure on relief in December last had been equalled for the same month of the year before.

The removal of all single men from the relief lists was a most commendable action. Unmarried men in urban centres who are unemployed can usually obtain board and a little more, even in winter, by going out to neighboring farms; and those who refuse to accept such employment should be allowed to go hungry.

Police Blame Drink for Higher Traffic Toll

Drinking was blamed by Scarborough and East York police for an increase in accidents during 1935 and speeding was condemned generally by police chief and highway constables.

"There were 25 more reckless drivers among drivers during 1935 than in the previous year, due to a considerable extent to the drinking of liquor," Chief of Police Thomas Draycott, Scarborough, declared. "This disregard for safety cannot, in my opinion, be corrected by jail sentences alone, but by cancellation of driving licenses, possibly for as much as two years."

Coach of Century Ago Used at Golden Wedding

Mr. and Mrs. John R. Mills, Mill St., celebrated their golden wedding last Saturday at the home of their daughter, Mrs. Hestlop. Their son-in-law, Dr. C. H. Hestlop, acted as coachman, wearing a top hat and driving the happy couple from their home to his home in a hundred-year-old coach, obtained from the estate of the late Andrew Baxter, of Hamilton, and drawn by old dobbie.

There were forty guests present, including their three sons and three daughters, eight grandchildren and one great-grandchild. Mrs. G. H. Freeman, and Mrs. W. Vivian and George Bell, of Nelson. Mr. Mills was born in the Scotch Block, Ebequesing at Palermo, 65 years ago. They were married by the late Rev. Mr. Cameron in Knox church on Martin Street, the church building is now an armory. Mr. and Mrs. Mills were showered with congratulations and were the recipients of many presents.

Children's Aid Society Placing Wards in Homes

Ways and means of getting more children placed in private homes instead of at the shelter at Milton were discussed at a meeting of the Peel and Halton Children's Aid Society in Brampton on Tuesday. This policy is designed to cut down the enrollment at the Milton shelter and provide boys and girls in their charge with the utmost in ideal home surroundings.

Payment of courses will be made to persons opening their homes in this way.

At the meeting on Tuesday, the new joint organization for the counties of Peel and Halton, took over their duties. Under the chairmanship of T. W. Duggan, the old board held a meeting at Milton in the morning. The new board held a meeting in Brampton, the new court house with J. M. Denyes, Halton public school inspector, as chairman.

There was an adjournment while the fourteen members went to the Victoria Hotel for supper. Returning to the court house, the following committees were appointed: Finance, E. D. Maguire, Port Credit; membership, Miss Blain, Milton; membership, W. Thompson, Brampton; placement, Mrs. Atkins, Bronte. Mrs. F. Vanderlip, of Brampton, is also a member of the board and will act on the house committee.

Last autumn, when re-organization of the society was started, a committee of 30 persons had been formed, which, incidentally, undertook the formation of the present joint board of management. At a meeting in Milton on Tuesday the board will present a report of their achievements and plans to this general committee.

Rev. B. F. Andrew Inducted

The Presbytery of Toronto met at Omagh Church on Tuesday afternoon, Jan. 13th, to induct Rev. B. F. Andrew, as minister of Boston and Omagh Presbyterian Churches. Rev. Edgar Foreman, Moderator of the presbytery, presided. Rev. Murdoch MacIntyre conducted the opening prayer of the service and preached the sermon. Rev. J. N. McPaul, the Interim Moderator, narrated the principal features of the induction. The Moderator of the Presbytery then put the prescribed questions to the minister-elect and inducted him as minister of the pastoral charge of Boston and Omagh. The right hand of fellowship was extended to the newly inducted minister by the members of the presbytery, after which Rev. J. Y. Fraser, of Simcoe, addressed the minister and people.

At the conclusion of the induction service the ladies of the congregations entertained the presbytery, members and visitors to tea in the basement. A very pleasant social hour was enjoyed by all.

Bro. Robinson. Reports received from the lodge were of a very satisfactory nature. The report of the membership was the best in many years. The number of two years ago. Bro. C. Robinson, the retiring District Master, gave the most glowing report of his visits during the year. The financial returns were very good. Most W. Bro. J. Hall, of Georgetown, the County Master, conducted the election of the officers for the current year, with the following results:

Enormous Damage by Rats in Dominion

The brown rat in Canada invades houses, stores, warehouses and markets, and, besides destroying fabrics and leather goods, it attacks all kinds of food—meat, groceries, fruits, vegetables and so on. In town and country it attacks poultry, destroying eggs and chickens. The foundations of buildings are also damaged by its activities. Everywhere it destroys incessantly, and yet its presence is tolerated.

In addition to the enormous destruction of food supplies, the brown rat is a serious menace to public health. It is a carrier of bubonic plague, one of the most devastating of human diseases which has been spread all over the world by the rat. In the 14th century it is estimated that about 25,000,000 people died in Europe from the "Black Death" as this disease was then called and 2,000,000 deaths are stated to have occurred during the epidemic in India in 1907. Bubonic plague is transmitted from rats to human beings by fleas. Modern methods of preventing the spread of the plague involve the most vigorous eradication of rats and the prevention of their landing in seaports.

In the Department of Agriculture, Ottawa, the control of rats which can be obtained by writing to the Publicity and Extension Branch, Dominion Department of Agriculture, Ottawa.
