

THE FEDDLER NUISANCE

The Town of Orillia does not handle its peddlers "with kid gloves." The Orillia council has doubled its rates for non-resident peddlers. The fee for local peddlers remains at \$1.25 covering one truck and one salesman, but for non-residents the fee is now \$2.00. To establish residence under the by-law one must live in Orillia for one year. Peddlers selling wares for 25 cents and under on foot must pay a \$25 license if they live outside town and \$5.00 if they are residents. The peddler problem is a serious one, especially to local merchants, who deserve every possible protection. The only way to curb this nuisance is by the imposition and collection of stiff fees.

Think!

A bulletin recently issued by the Ontario Highway Department dealing with highway accidents, made the forecast, based on five years' experience, that between now and the end of September 250 persons would be killed on streets and highways in the Ontario and 5,000 injured. The unpleasant thought that any one of us might be the next victim should cause all motorists to be more alert and to exercise the utmost caution. Nearly every automobile accident is the result of thoughtlessness of one or another. To prevent these inexcusable tragedies of the highway everyone should be prepared for the unexpected. The safe driver is always alert and cautious. The safe driver is courteous and considers the safety of others—particularly children and the aged. The safe driver adapts his speed to road and weather conditions and to the flow of traffic. The safe driver does not cut in and out of traffic nor pass other vehicles on curves or hills. The safe driver keeps his brakes, tires, lights and steering gear tight. Are you a safe driver?

Link-up of Police
Radios Not Feasible

The possibility of Hamilton, Toronto, Guelph, Brantford, Kitchener and other cities in this district being linked up with a universal police radio system is not considered feasible by Chief of Police Ernest K. Goodman, of Hamilton. The chief points out that each police radio operates on different wave lengths and to make a two-way set possible would require considerable mechanical changes. He further explained that the telephone proves speedy enough for police purposes in broadcasting information regarding hold-ups, etc. Other routine work, the chief concluded, could be done by telephone or letter at any time.

Owen Sound is talking of installing artificial ice equipment in the Grey Curling rink there. This question has been left in the hands of a committee of eight, chosen from the Grey Curling Co. and the Grey Curling Club.

OBITUARY

WILLIAM C. IRVIN

After an extended illness, William Charles Irvin, President of the Irvin Lumber Company, Ltd., passed away on Friday, May 22nd, at his late residence, 185 High Park Ave., Toronto, in his seventy-seventh year.

Mr. Irvin was born in Oxford County on January 3rd, 1859. His father was John Irvin, who was born in Mount Charles in Peel County, the son of an early pioneer settler, Charles Irvin, who had come from England. His mother was Emily Sky, who was a girl of ten years of age had come from England and lived on an adjoining farm at Mount Charles.

In 1867, the year of Confederation, Mr. Irvin's father moved from Oxford County to Halton County, where he started a lumber and shingle mill at Hornby. While yet a boy, Mr. Irvin helped his father in the operation of the shingle mill. As he grew older the enlarged his experience to cover in turn every phase of sawmill operation, which experience was to stand him in good stead in later years. As a young man he finally secured a partnership with his father and brother, the late John H. Irvin, who predeceased him two years ago.

The Hired Man

I like th' farm n' th' country, N' I think 't' animals swell, But it's th' hired man that gives me 't' creeps, Cause I don't like him so well. He's old n' haggard, n' stoops when he walks, An' boy, has he got a beard! But it's th' way he looks an' squints at me, 'T' allus makes me afeared. His hair is long an' ragged, An' he watches whittles 'em; He won't let me try 't' squirts 'Whin he milks th' Moo Cow Moo. Whin I put a frog in his tea-cup, He didn't like 't' stant; But he jist stood there an' stared at me, An' let out an' awl grant. Th' other day I got 'real mad,' An' called him a cross of 'bear; Say, 'n' turned round, an' said to me—Well, you should hear him swear. Last night I tried to please him by feedin' 't' chickens, you see, I gived 'em all th' grain they'd hold, But th'et man half murdered me. Yeah, I like th' farm n' th' country, N' I think 't' animals swell, But it's th' hired man that gives me 't' creeps, Cause HE don't like ME so well. —M. H.
