Difficult to Trace Back Ancestry of the Bulldog

Because of his English origin, the bulldog is frequently called the Engname for him is simply "bulldog." As with most breeds, it is extremely difficult to trace back the origin of the buildog. When the Romans invaded England in the early centuries, one of the things they wrote about was that the country was nearly overrun with large, ferocious dogs with perpetually snarling faces. These probably were mastiffs, and could be called the ancestors of the later bulldog, says a writer

in the New York Herald Tribune.

The name first appears in print in indicated just what the bulldog was used for, that is, the ancient sport, so-called, of buli-baiting. However, the cruelty of this sport caused parliament in the Seventeenth century to issue an edict prohibiting these spectacles, and from then on the bulldog lost its popularity. In fact, it was the impression at that time that he was good for only one use, that of bull-baiting, and the breeding was practically discontinued when it was prohibited by law. The breed became almost extinct, and yet it can be truly said that Do you get me? to Beloved Polish Hero

The most interesting monument of Cracow, Poland, to Americans is the great mound of earth which the entire Polish nation built to the memory of Kosciuszko, who served as Washington's adjutant during the Revolution ary war, notes a writer in the Chicago

Kosciuszko also fought for the independence of Poland and after his death the Polish people revived their ancient way of honoring heroes. From all over the country peasants came bringing earth in their long, flowing sleeves and aprons to deposit on the site here. The mound is 1,000 feet high and is crowned with a large granite block marked "To Kosciuszko,"

Kosciuszko's tomb is in a vault of the Cathedral of Cracow, a national sanctuary for Polish kings and heroes. A silver coffin, that of Stanislaus, the patron-saint of Poland, stands in the middle of the church, and near one of the chapels is a crypt containing the ashes of the greatest Polish poet, Adam Micklewicz.

The cathedral and the other churches of Cracow are particularly worth a visit by the tourist on religious festivals, especially Corpus Christi day. At this time girls dressed in white and blue carry gally colored images of Mary from church to church, and the entire city turns out for the processions.
