

**C. B. C.'s Biggest Station  
Will Be Built At Hornby**

Canada's largest radio station will shortly be commenced, it is understood, and be completed in October next. The station will be situated on a half mile from the village of Hornby, which is 30 miles from Toronto, Hamilton or Guelph.

Land is being purchased in the name of the Canadian Broadcasting Corp., the deeds of which are registered in Milton registry office. The vendors are Albert McCurdy and Galbraith brothers. Inquiries in the area show that a number of land parcels have been held under option, presumably with a view to the experts inspecting them and determining which was the most suitable from a technical standpoint.

It is understood that ground will be broken this week and the two towers each 750 feet high or 207 feet higher than the Bank of Commerce Building in Toronto, are to be erected.

Underground it is understood there will be some 30 miles of wire. A building in connection with the broadcasting station to cost \$400,000 will also be erected and at least seven employees will live at the plant. The large station is located so as to experience a minimum of interference from radio stations in Toronto and Hamilton. It is expected to bring considerable business to Hornby as a tourist attraction. This will be the main C. B. C. station and its equipment will be the most powerful in the Dominion.

J. A. Willoughby, Toronto realtor, secured the land options. Albert McCurdy stated to the press he received his money for the land sale on Monday last.

PLAN JUNIOR MATCH**

The event is to be staged in Milton district on Friday, June 4th, and it is anticipated that N. G. McLeod, of Galt, and Alex Black, of Guelph, two of the most outstanding plowmen in the province, will be on hand to coach the boys. The match is open to all young men in Halton under 20 years of age. All four township councils have made donations to the prize list, and separate classes will be provided for each township. Furthermore, we understand from Mr. Chisholm that each township will have a "green" class, which will be open only to boys who have not completed their plowing match. A plowing match or coaching class. A gala day for the plowboys, and the officers of the local organization are out to break the record made at last year's Junior match.

**BASEBALL**

Halton and Wentworth O. E. A. A. Intermediate O. baseball season opened here at the Agriculture grounds, Saturday when Carleton Place, Milton, and Wentworth O. E. A. A. grouped in their class Milton Juniors and Juniors combined and entered a team in the above mentioned league. A night to two and gained early in the game by Milton, who wiped out in the seventh innings. The game ended 12 to 8 in favor of Carleton. The contest was full of action of every variety, without a dull dragging moment and presented something of everything for the small crowd present. The local youngsters even pulled off the hidden ball trick. It was a grand win for the winners. Carleton has a smart young ball team with two good pitchers in McLean and S. Zimmerman. On the day's play K. Zimmerman appeared to be the best of the team. A single and the big hit of the day with three hits. McLean pitched cleverly for the winners, having nine strike-outs in six innings. Milton Juniors showed lots of power with the willow but were not as defensively. With a commanding lead going into the seventh frame the local infield went completely to pieces and blew worse than the man with the trombone. They succeeded in kicking away seven unearned runs. That disastrous innings left the locals in a quandary and gasping, they had about every error in the rule book and whole lot not listed in that book. "Scotty" Patterson pitched good enough ball but was the victim of his mates erratic play. He struck out ten batters and allowed eight hits. Lyle, Patterson and Lanont hit well, each gathering two safe blows. Stan Fay who took over the management of the youngsters is not worrying over the issue. Stan hopes to round the youngsters into shape and will soon have an outfit that will answer all requirements and one that will make it interesting for all comers.

**BOTH LOCAL TEAMS LOSE  
OPENING GAMES**

The local baseball teams got off to a bad start in their opening games on Saturday, when the home team was defeated on the high school campus here by Milton by the score 16-6, and the juniors lost to Waterdown by the score 14-12.

The game here opened with the usual ceremonies, Mayor Harris delivering the first ball to Rex Hume, who swung wildly. Murray Thorpe started on the mound for Burlington, and retired in the third innings in favor of Jacobs, a left-hander, after Milton had secured 10 runs. The home team showed lack of practice, and could not connect with the ball when it meant runs. The score at heads-up ball, and appear to be the team to beat this season.

The junior squad played at Waterdown, and lost the game in the first innings, when Waterdown scored 10 runs.

**DRUMQUIN**

A very enjoyable meeting of the Woman's Association and W. M. S. was held at the home of Mrs. James Hall, on Wednesday, May 5th. The worship service was taken by Mrs. Clifton, Mrs. W. A. McCartney and Mrs. Dawson. The study book was under the direction of Mrs. Clifton and the general services were given by Mrs. Clifton. Musical numbers consisted of a piano duet by Misses Dorothy and Evelyn Ball and a vocal solo by Miss Margaret Fuller. The guest speaker, Mrs. C. Kerr, of Oakville, in her pleasing and able manner, gave an interesting talk on the early life of Francis E. Willard, the woman who helped to bring sobriety and happiness to thousands of homes. The program brought to a close by a prayer by Mrs. Clifton. An amusing contest followed in which Mrs. C. Kerr and Mrs. D. Downs were the winners. Refreshments were served by the hostesses, brought a happy and profitable afternoon to a close.

**OCTOBER EGGS  
FROM LATE-MAY CHICKS**

Cockerels 4 1/2 to 5 lbs. at Thanksgiving—6 lbs. and Over For the Christmas Trade

**RAPID** growth and early maturity are even more important in late May and June chicks than in earlier chicks. If you happen to buy a slow growing strain of chicks in late May or June, you don't have eggs to sell till the high-price season is over. But quick-growing stock gives you a chance to make some real money.

Bray's May-hatched "Xtra-Profit" pullets, if well reared, will give you high priced eggs to sell in October, November and December—and keep right on laying through the coldest winter months. They have a countrywide reputation for wonderful livability and extra rapid growth. When well handled, they usually commence to lay at 5 months old (or younger) and often reach 50 per cent production before they are six months old. We can back up these statements with actual evidence from every Province in Eastern Canada.

It's the same with cockerels as with pullets. Bray's "Xtra-Profit" cockerels, when well fed, usually gain a pound a month and sometimes more. You can finish May-hatched "Xtra-Profit" cockerels at the popular 4 1/2 to 5 lb. weight, by Thanksgiving—or hold them to make 6 pound roasters (or better) for the Christmas trade. There's money in chickens when you get growth like that—and we have ample evidence to show that our customers are getting it.

Our prices are down to rock bottom. Don't buy until you see our end-of-the-season price list. We can supply "Xtra-Profit" day-old pullets and started pullets for immediate delivery—and cockerels if ordered in advance. Choice of seven breeds, Standard Grade stock in the same 7 breeds at still lower prices. Write or phone today for complete information.

**WARNING  
TO MOTORISTS**

At the last session of the Legislature the law respecting the speed of motor vehicles was amended. The effect of this amendment is to increase the maximum permissible speed at which motor vehicles may be operated. The amendment in question becomes effective on the 24th of May.

Motorists are warned that the new speed limits are the positive maximum speeds at which motor vehicles may be operated under the most ideal conditions. While the maximum speeds are to be 30 miles per hour in cities, towns and villages and 50 miles per hour outside, speeds much below these are necessary under many conditions. It is still an offence and considered reckless driving, for which severe penalties are provided, to operate at any speed without due regard for traffic, highway or light conditions.

Motorists are urged to exercise the greatest of care and courtesy and are warned that a willful disregard for the safety of themselves or other users of the streets and highways will result in prosecution and withdrawal of the privilege of driving.
