

BASEBALL

Threatening clouds of the morning cleared away by noon and the sun was shining brightly...

The locals looked real nifty in their new grey and red uniforms all lettered up like cross word puzzles.

The one-sided hitting hurricane easily featured the games. The locals had 20 hits, good for 35 bases.

The big defeat should not dampen the ardor of the villagers who were up against a team showing mid-season form.

EMPIRE DAY

A Festival of the Empire Family
By Mary Agnes Pease

The marvellous growth of the Empire Day movement brings to mind the old axiom "Great Oaks From Little Acorns Grow."

The locals looked real nifty in their new grey and red uniforms all lettered up like cross word puzzles.

Some few years after Empire Day was founded in Canada, another great patriot, the Earl of Meath, began an Empire Day movement in England for the purpose of promoting better education in Empire matters in the schools.

To those two great patriots, Mrs. Fessenden and the Earl of Meath, the British Empire was "a goodly heritage to be fashioned like unto a City of God."

Some time ago, an editorial appeared in one of our Canadian newspapers which, after commending the establishment of Empire Day, asked the question "What would the world be without the British Empire?"

The British Empire is by no means perfect. It has done those things that it ought not to have done, and it has left undone those things that it ought to have done.

And so in this coronation year, our Empire story has been told again to school children in the Mother Commonwealth of Nations.

These children in the Mother Commonwealth of Nations, Empire and other traditions of the day, and history and

personal memories of glamorous deeds were revived. Children were told tales of the valor of our navy, of our armies, our discoverers, navigators and pioneers—when shall their glory fade?

MOTORISTS!
... in all your driving
Try Courtesy

every inch of the way
EACH successive year has seen motor traffic greatly increased. With this increase there has come, unfortunately, an increase in traffic accidents.
It is the duty of those responsible for the regulation of the traffic, and of every individual who operates a motor vehicle, to do everything possible to reduce these ever-mounting and alarming accident figures.
The Government and my department have taken every precaution within our means to make motoring safe. We have built wider highways, have painted traffic lines on the pavements, have erected signs at every curve, intersection and railway crossing, have continuously patrolled the roads with uniformed police and in many other ways have striven earnestly to reduce traffic accidents.
And you, Mr. and Mrs. Motorist, truck-driver and motorcyclist! Have you done everything you possibly can to prevent accidents that may kill you and your family or some other persons to whom life is also sweet?
If you will just remember to Try Courtesy in all your thinking and driving in a motor vehicle you will have made your greatest possible contribution to the reduction of motor vehicle accidents.
Please remember there will be more traffic than ever this season and there will be more accidents and deaths, too, (and that may include you) unless there is more Courtesy shown by every motorist towards every other motorist.
So, again, I beg of you to "Try Courtesy" every inch of the way this season. Do that and you will get safely to where you are going and safely back again.
