Here's a home that really is a breeze. This all-brick bungalow comes complete with air conditioning.

The family room is richly panelled with a fireplace.

"THE WORKS!!"

Now showing — a home with almost everything you could ask for!! It's a fine brick bungalow with detached garage. The air conditioned interior provides a living and dining room combination, three cosy bedrooms and two full bathrooms. A large modernized L-shaped kitchen with ceramic counters includes lots of cupboards and a main floor laundry area. There's also a walk-out to a cedar deck and fenced yard.

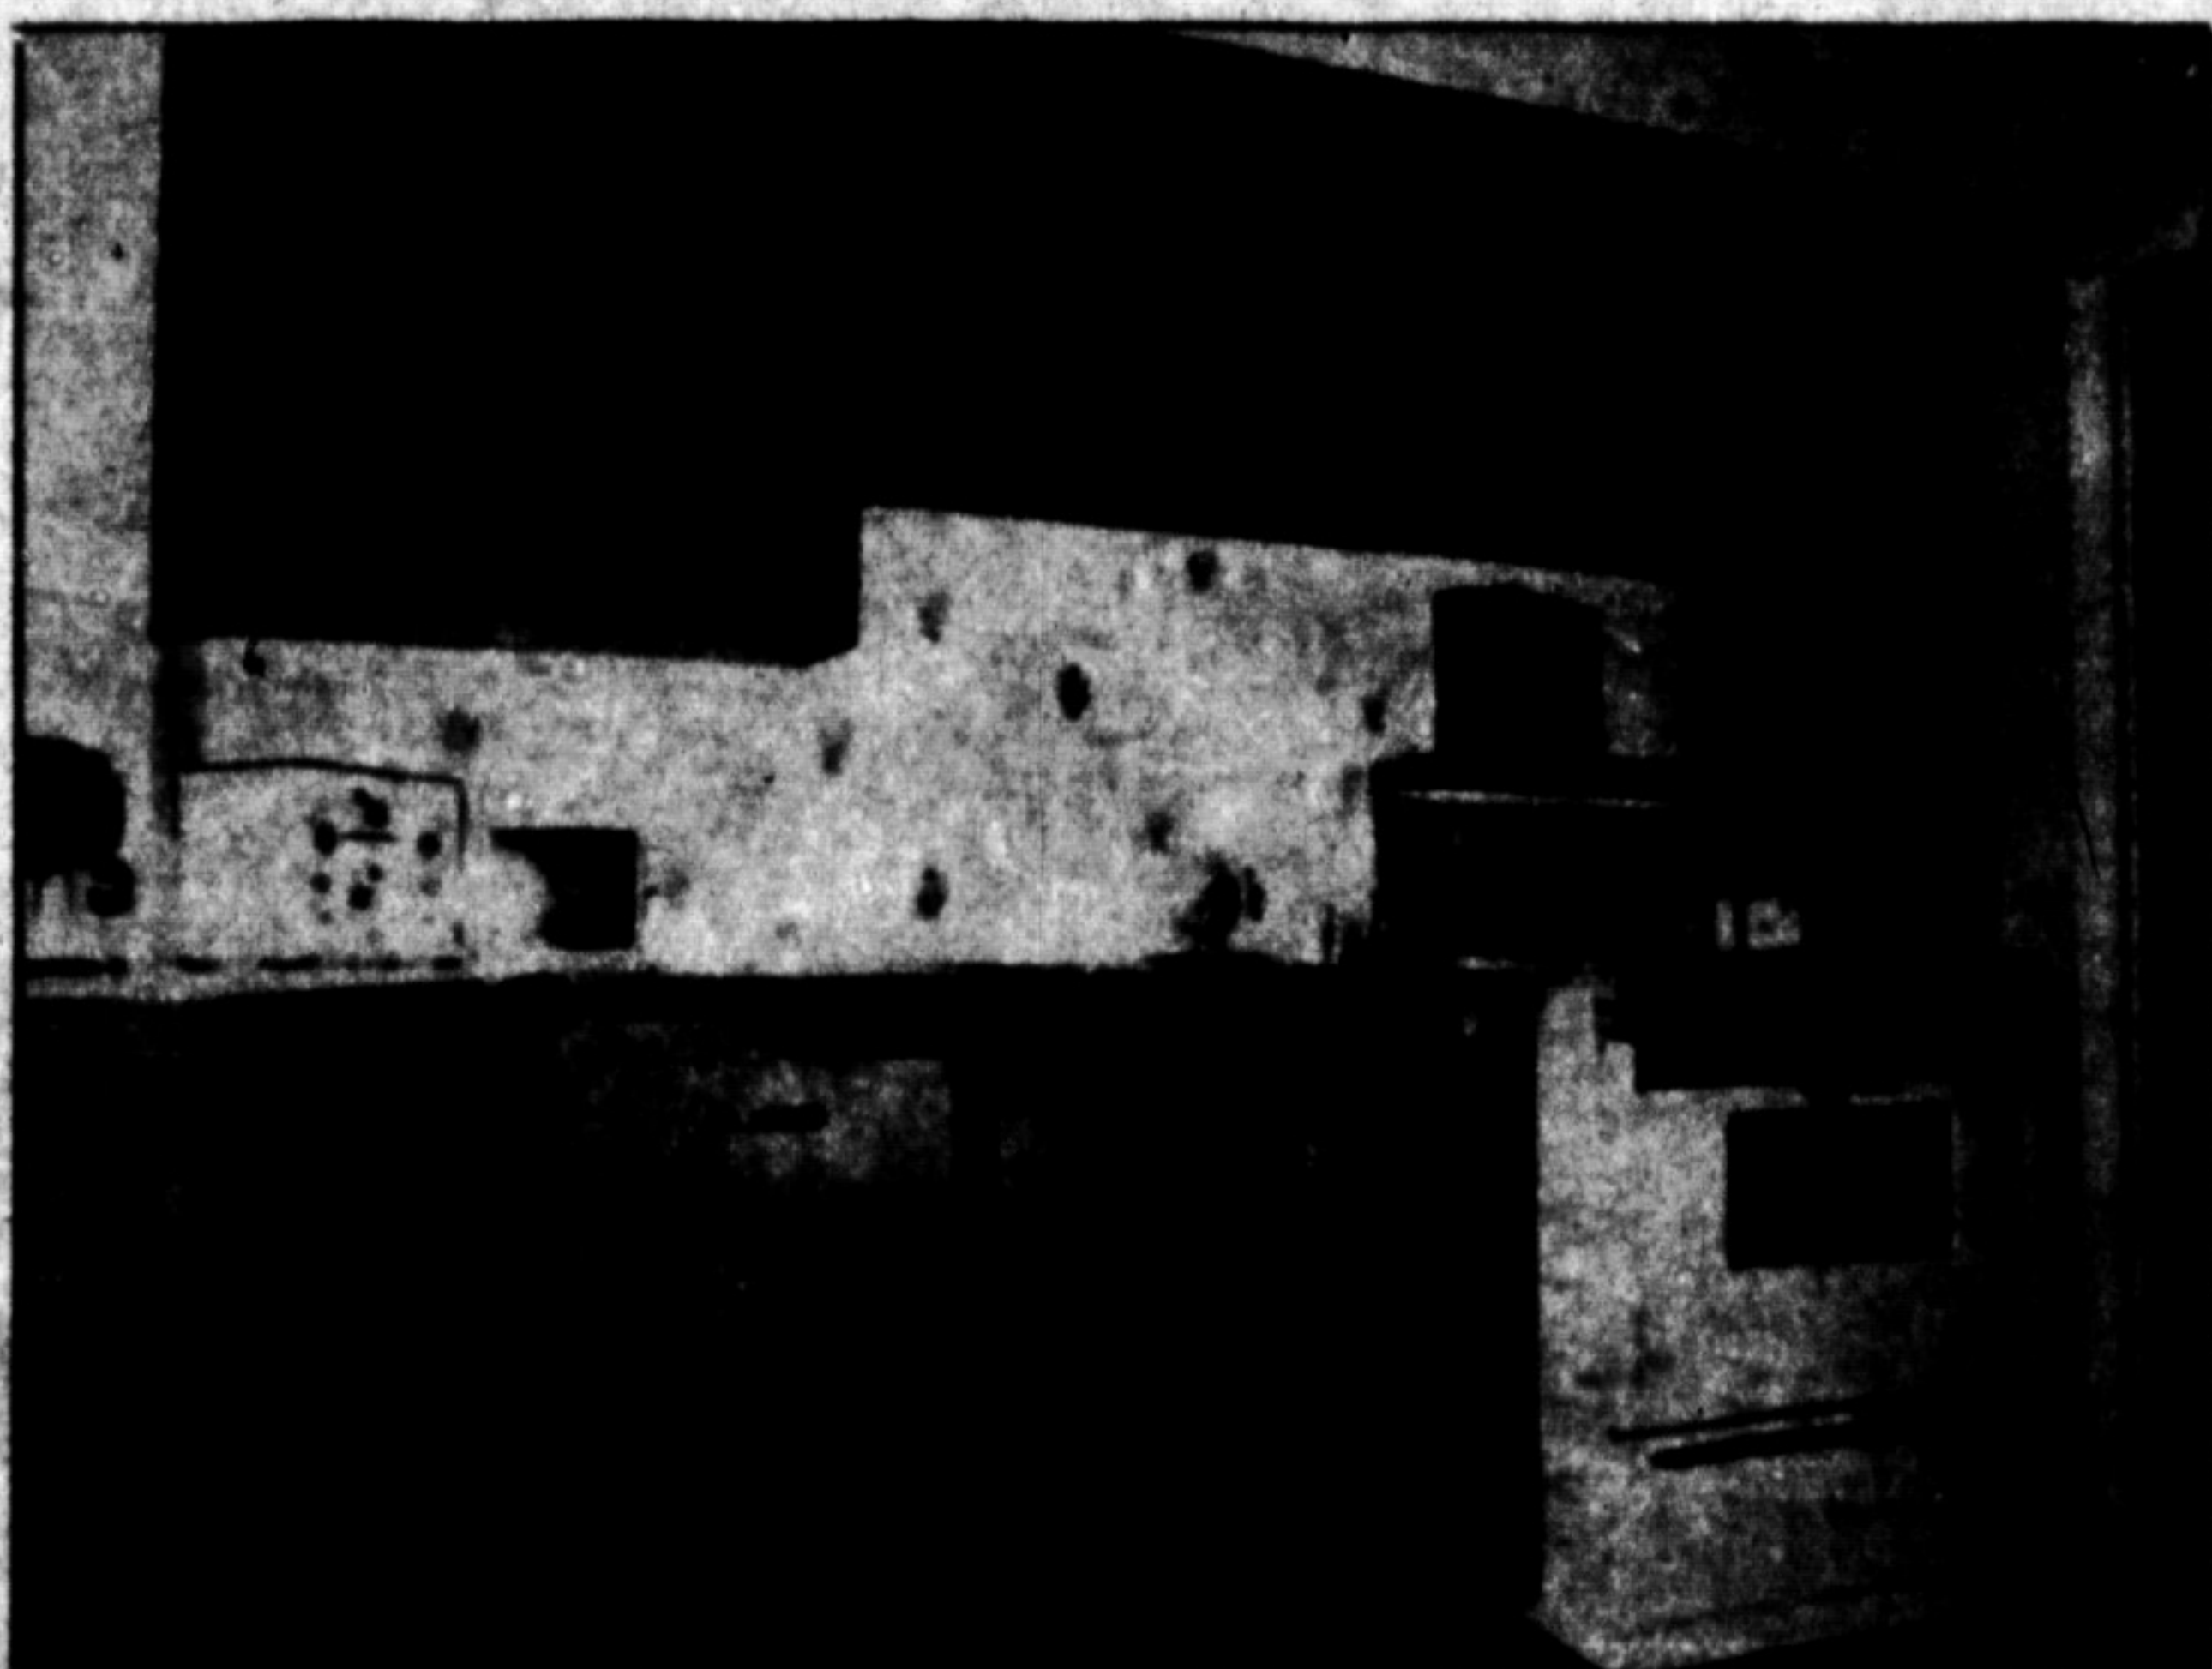

The downstairs is completely finished. One section has a pine panelled recreation room with bar and fireplace insert. Two other large areas could be used as a games room and a spare bedroom.

Its location in a mature area and its towering evergreens make it even more attractive.

Good location, comfortable living and pride of ownership are all found here! View in person by calling the listing agent. \$104,900
