FACT  
OR FALLACY?

**Reducing  
Cholesterol Levels**

*Once your arteries have  
begun to clog with fatty  
deposits, nothing short  
of surgery will help.  
This is not entirely true.*

**FACT:** The main cause of  
fatty deposits clogging  
arteries is high blood  
cholesterol levels.  
Researchers have  
proved that by lowering  
your cholesterol levels  
with careful diet and the  
use of medication, you  
can slow the build-up of  
fatty deposits and,  
possibly, reduce the  
deposits.
