**COUNTRY IN YOUR SOUL?** If you've often thought about moving to the country but found the extra distance intimidating, this could be the property for you. About a mile from Hwy. 25 and Steeles, it features a large brick farmhouse-style home, a brick carriage house and a spring-fed pond on 2.8 acres. The focal point of the home is the open concept family room-kitchen-eating area combination with a handsome fireplace and south-facing bay window. A living room, dining room, bedroom, bathroom with Jacuzzi-type tub, and a laundry room-storage room complete the main level. The second floor could easily be a self-contained apartment, with three large bedrooms, kitchen, laundry room, and a four-piece bath. The brick coach house is approximately 20'x40' and has its own furnace. The ground level makes an excellent workshop. A high loft area lends itself to many uses, such as a studio or large play area. An attached steel-clad building has three bays. The pond has been dredged and sand added, and the current owners use it for skating and swimming (preferably in the appropriate seasons). This is a great family package, close to town. It's worth a look.
