

Don't discourage lawn cutters with poor equipment

RE3 — The Canadian Champion/Marketplace, Wed., May 11, 1988

Dear John: When I call to my son to mow the lawn, he gives me a busy signal. Do you think it's because our 1/2 acre lawn might be a long distance number for a walk-behind mower?

Dear On-Hold Pop: Your son could be flashing you a message that mowing takes too much time with an inefficient machine. In general, if a lawn is less than 1/2 acre, a walk-behind mower can be fine. But, if it's 1/2 acre or more, or if it takes more than an hour to do the job, a riding mower would hold the line on mowing time. If your lawn is between 1 and 2 acres, a lawn tractor should

Dear John:

John Deere Answers Your Lawn and Garden Woes

do the trick. And, if it's larger than 2 acres, or you want to do other jobs in addition to cutting grass, a lawn and garden tractor is the one for you. With the right machine, you should be able to get your son's operator assistance.

Dear John: Without a tip sheet on mowing skills, I've been gambling with safety while playing against the house. Can you give me

an edge to make safety a sure winner?

Dear Backyard Gambler: Sounds like you've lost your operator's manual and you're forced to play the game without knowing the rules. To become a mowing safety ace, order a new manual from a dealer and follow these guidelines.

First, review the manual carefully. Before mowing, pick up any tools, toys, dog bones, sticks, stones or other debris on the lawn, and send children and pets far away from the area.

Safety is a better bet if you wear hard

shoes with good traction and close-fitting clothing. Tuck in shirttails and remove dangling jewelry that may catch on controls.

Also, douse smoking materials before pouring gasoline, and wipe up any fuel spills on machinery or the driveway. Keep your mower in good repair and all safety devices in place and working. Before clearing a clog, shut off the engine or disengage the cutting blades. Use a stick to clear the clog — never your fingers. Sharpening your mowing safety skills will increase the odds that you'll enjoy a trouble-free summer.
