A kind doctor

Dear Editor:
Three years ago I fell and broke my arm. Dr. (Ken) Bradley was on call and he set my arm for me. I found him to be exceptionally kind and thorough during my misfortune. Since then I have visited him at his office for various reasons, and I agree with Paul R. Tate (Champion, April 20) that Dr. Bradley was always well prepared.

I find the report I read in the Champion (March 30) to be very unkind. I did not feel it was fair.

Speedy delivery

Dear Editor:
We were looking for your subscription renewal notice. I was going to send it in this week. I haven't received it.

We get the (Wednesday) paper Thursdays about 90 per cent of the

time, so that's better delivery than we get for most letters.

We do enjoy the paper, especially the Omagh news. But we miss the bowling scores. (Editor's Note: there is no longer a bowling complex in Milton).

Does Milton's (Halt Centennial) Manor have bowling in their new addition? (Editor's Note: Sorry, no). Keep up the good paper.

Bicycle safety

Dear Editor:
As summer draws nearer, I see many children riding their bicycles around town. I've taken to riding my bike to work.

Recently, while returning from work, I nearly hit a small child coming around a parked car. The child was riding his bicycle on the left-hand side of the road (we were travelling the opposite directions).

As a parent, I enjoy seeing children outside — and I fear for their safety. I believe parents should stress to their children the importance of safe cycling.

A child using hand signals and riding on the correct side of the road is as important as a driver staying in his lane and using turn signals.

Drivers don't always see cyclists. This I know from experience.

Following the correct rules surely decreases the risk of a child being seriously injured in an accident.
