

## Defensive driving is message of week

Ontario's Transportation Minister Ed Fulton is urging Ontario drivers to participate in The Great Canadian Challenge, the theme of the Canada Safety Campaign during Safe Driving Week on Dec. 1-7.

Mr. Fulton challenges all drivers to use the roads and highways with

more caution throughout the year. With more than 200,000 reportable accidents resulting in 1,229 deaths and 121,089 injuries in Ontario last year, there is an urgent need to improve our driving habits, he said.

There are many defensive driving techniques each of us can prac-

tise to reduce the likelihood of being in an accident," he added.

Some techniques include simply adjusting your speed to the road, traffic and weather conditions, wearing seatbelts, practising "if you drink don't drive", be prepared to yield the right-of-way.
