### Ghostly Good

- #1 Plan a Halloween party instead of trick or treating. Have a costume contest, bob for apples, tell scary stories and have every guest bring a treat to share. That way, everyone will go home with a bag of goodies.
- #2 If you do go trick-or-treating, only go to houses of people you know. Plan a route in advance and let your parents know where you'll be.
- #3 Don't eat any treats until you get home and have them carefully inspected. So you won't be tempted, have a good meal and sample what your parents are passing out before you go.
- #4 Young children should always be accompanied by a parent or older sibling.
- #5 Observe all traffic rules. Only cross streets at intersections, and remember to look both ways before stepping off the curb.
- #6 Make colorful costumes on darker colors.
- #7 Try on costumes you can move in. You could drag or trip.
- #8 Don't drink alcohol. It's better to be sober than to be in a car.
- #9 There's nothing wrong with a little trick.
- #10 Never drink and drive. Numbers, so be sure.

Follow Good
