

WEDNESDAY, OCTOBER 31

CAREFULLY

and Halloween Ideas

Be sure drivers can see you by wearing a light-colored costume or by putting reflective tape or stickers on your costume.

Test your costume in advance to make sure it fits comfortably. Check to see if any part of the costume is on the ground and make your trip safe.

Don't limit your vision with a mask. Face paint is better than a close-fitting half mask with large eye cutouts.

There is no such thing as a harmless prank. Even if you say "trick or treat," never play Halloween pranks on anyone.

Don't trick-or-treat alone. There is safety in numbers. Take along several friends or family members.

Follow these safety tips, take common sense, and your Halloween is sure to be a howling success!

THIS MESSAGE IS BROUGHT TO YOU BY THESE COMMUNITY-MINDED BUSINESSES
