THE AUTO EXPERTS

Robert Steele has 12 years experience and modern equipment as the backbone of his business, Blackburn Automotive.

Blackburn is on line with GO riders

GO Transit riders will find Blackburn Automotive is a handy place to leave their cars for repairs. It's located just across from the Main Street GO station.

Blackburn owner Robert Steele even provides a key drop slot for those early morning commuters at his 751 Main St. auto repair shop. Mr. Steele runs a one-man operation and caters mainly to owners of vehicles which are out of warranty.

A mechanic for 12 years, he specializes in general repairs to domestic and imported cars and light trucks. Mr. Steele keeps pace with advances in the industry by attending various courses. The equipment at his shop has also kept pace. Customers have the advantage of a full print-out produced by his computerized engine scope.

Mr. Steele stands behind his work offering a minimum guarantee of three months. The duration of a guarantee is based on the age of the vehicle, its mileage and the type of work done.

Service provided at Blackburn includes everything from an oil change and tune-up to front-end work, air-conditioning and heating and brakes. Mr. Steele offers same-day service.

His shop is open weekdays from 8 a.m. to 5:30 p.m. and Saturdays from 8 a.m. to noon.
