## 49 POINT BRAKE INSPECTION

"Why does Midas offer a free 49 point brake inspection on most cars and light trucks? Because there's more to testing your brakes than pumping the pedal up and down.

Today's anti-lock and other advanced braking systems perform exceptionally well but they're complex. And inspecting them or working on them demands the kind of skills and attention to detail that Midas wrote the book on.

So it takes 49 separate steps. And a little of your time. But it's free. And it could be the time of your life."
