### PRO DRIVING TIPS

NUMBER **18** HIGHWAY  
HYPNOSIS

Duncan Don, Severn  
Bridge, of Kingsway  
Transports Limited, has  
driven 3.9 million km and  
has 29 years of accident-  
free driving.

*Don't become  
a spectator  
on a long  
trip.*

This usually creeps up on you when you have been driving on an expressway or long straight road for several hours. It can lead to you becoming a "spectator" instead of a driver and things just seem to "float" by. Or it can send you to sleep.

To guard against highway hypnosis:

- Don't eat a heavy meal before you set out.
- Keep the car temperature cool.
- Stop every hour or two for a coffee, light snack or walking break.
- Talk to your passengers.
- Keep your eyes moving and check your rear view mirrors often.
- Look at all the road signs and traffic around you.
- Don't drive too far in one day.
- Don't drive during your normal sleeping hours.
