

"... Now that I'm retired, I have time to be able to take University courses. Age isn't a factor in learning. The courses that I've taken at Laurier have been very enjoyable experiences for me. They improve your mind and keep you current with the world."

George Lundy  
Caledon East, Ontario

# Exploring New Horizons

**WINTER SEMESTER 1991**  
January 7 - April 29

Laurier offers courses both through classroom lectures and at a distance, through Telecollege. In Brampton, degree programs are available on a part-time basis in six disciplines, or you can work toward a Diploma in Business Administration, or an Arts Certificate. Rather than completing a program, you may want to study only for your own interest and enjoyment. Whatever your motivation, we're here to help you achieve your educational goals.

Classes are available for part-time students at Brampton Centennial Secondary School, 251 McMurchy Avenue South, Brampton. Teleconferences for Telecollege courses are also held at this location. Part-time Studies Course Calendars are available through the office of Part-time Studies or at your local library branch. We're sure that at Laurier, you'll find classes that suit your interests, career and schedule.

## IN A WORLD OF RISING ENERGY PRICES

## HERE'S HOW YOU CAN MAKE EVERY DROP COUNT.

■ Don't exceed speed limits. Reducing your speed from 120 km/h to 100 km/h will save 23% in gasoline costs.  
■ Cutting back from 100 km/h to 80 km/h will save about 18%.

### YOUR HOME

A major amount of our annual energy use goes to heat our homes. Here are a few tips on how to take some of the heat off your home energy costs.

### HEATING

■ If you lower your thermostat from 22°C to 20°C during the day and to 17°C at night you could save up to 15% on your heating bills.  
■ Oil furnaces should be tuned up once a year.  
■ Clean or replace furnace filters regularly.  
■ Seal your furnace ductwork with duct tape and insulate hot air ducts passing through unheated spaces.

### WEATHERPROOFING

■ Weatherstrip windows and doors.  
■ Caulk windows and door frames.  
■ Insulate attic, walls and basement to recommended levels. Install a vapour barrier where necessary.

### YOUR WORLD

Just about every piece of plastic that you use is derived from a fossil fuel. The production of paper, metal and glass uses enormous amounts of energy. So the 3R's of environmental protection are vital as well. Reduce your energy needs whenever you can. Reuse bags, containers, bottles and wrappings when possible. Your community probably has local recycling programs in which you can get involved.

### WE CAN HELP.

We've got a lot more helpful tips on how to conserve energy. And they're free. Just send us the coupon. We'll rush a package of brochures to you.

If you can't get through, please try again a little later. We'll make it worth your while.

The situation in the Middle East has driven up the world price for oil and every country is feeling the effect.

But there are a lot of things you can do to use less energy and help reduce your costs. You can make every drop count. Right now.

Not only will you be reducing your costs, you'll be helping the environment by cutting back on greenhouse gases and the use of fossil fuels.

Here are just a few tips.

### YOUR CAR

Here's how to drive down costs.  
■ Walking will save 100% of your fuel costs.  
■ Using public transportation will save a lot, too.  
■ Having your car well tuned and serviced regularly can save you 10% in fuel costs.

## Beating the rush

There were 'beary' many customers at the Manor's 'Beary' Merry Christmas Bazaar on Saturday who got a jump on their Christmas shopping. Scooping up a hand-knit sweater is Jan Beauchemin (right) with Manor resident Irene Hesketh (left) making the sale and Carol Lidstone waiting her turn. The residents at the home for the elderly create most of the items for the annual sale.
