PRO DRIVING TIPS

19 TRUCKERS TO THE RESCUE

Steve van Borsykowski, Brampton, of Labatt's Breweries, has driven 4.8 million km and has 20 years of accident-free driving.

The trucking industry is one of the lifelines of the nation. We truck drivers bring you the goods and services that keep industry going and enhance your quality of life. We are also your partners in safety on the road and can be of help to the travelling motorist in many ways.

If you need directions, stop at a truck stop. You are sure to find a truck driver who knows the area in which you are interested. He or she will be glad to advise you.

If you have a break-down, pull as far off the road as possible, turn on your four way flashers, and display a white cloth from your radio antenna or trap it from the window on the driver's side. Truck drivers recognize this as a sign of distress. Some drivers will be able to radio ahead for help. Unless there is an accident or someone is obviously in distress they may not stop because they run on tight schedules and are also concerned about their own security and safety.
