**THE
 AUTO
 EXPERTS**

**AACORN
 RADIATOR SERVICES**

**Aacorn's warranty
 goes a long way**

Aacorn Radiator's lifetime warranty is something for its customers to bank on.

Rads are guaranteed for as long as the customer owns the vehicle, provided the prescribed maintenance plan is followed. There's also a lifetime warranty on gas tanks.

While their specialty is heating and cooling systems, basic mechanics is an added service to customers.

The owner of Aacorn Radiator for the past 18 months, Jim Oke has more than 22 years experience in the field. He says rads haven't changed much over the years, but their role is more important today. Modern aluminum engines run at much higher temperatures than their predecessors.

In addition to cars and light trucks, radiator service is available for heavy machinery, motorcycles and even antique vehicles. Jim enjoys the chance to work on antiques with intricate cooling systems.

Customers can usually have their vehicles back the same day. Jim says there's normally a four-hour turn-around on parts that have to be ordered. Appointments are not necessary and customers are encouraged to just drop in. The owner explains that he likes surprises.

There's a local pick-up and drop-off service for customers who leave their cars at the shop. Aacorn is conveniently located to accommodate GO train riders at its 761 Main St. E. address. Jim will wait a few minutes after closing time for commuters arriving on the train.

Those who are concerned about where the used antifreeze goes at Aacorn will take comfort in knowing it's picked up by a recycling company.

Aacorn is open weekdays from 8 a.m. to 5:30 p.m. and Saturday from 9 a.m. to 1 p.m.
