## Week Ahead Horoscope

Forecast Period: March 22-28

**ARIES (Mar. 21 - Apr. 20):** Situations may be much in flux this week, but changeful trends will lead to better conditions, so try to go with the flow. Leave it to others to sort out any problems. Looks like you'll be spending a glorious evening with friends or a loved one, probably around Tuesday. Consider the feelings of others.

**TAURUS (Apr. 21 - May 21):** You may spend more cash than is strictly necessary, but the chances are that you'll get full value in pleasure for indulging in "extravagance." Astrology and the occult will become more meaningful to you. Don't hold grudges.

**GEMINI (May 22 - June 21):** Whatever your age, you'll almost certainly be feeling exceptionally young at heart this week, and very much inclined to do as you please rather than knuckle down to duty. You'll also be in a very generous mood. But, be sure you don't go over your budget.

**CANCER (June 22 - July 22):** An early start should open some useful doors while the cycle is high. This is most certainly a week for taking an active interest in what others are doing and all that is happening around you; make the most of any opportunities to pool resources. A brief word of warning — don't get involved in clandestine affairs!

**LEO (July 23 - Aug. 23):** Minor problems and upsets are likely to cause you some concern during the weekend. But things will brighten up later on, and there will probably be a special invitation. You may meet someone who could prove a useful connection when it comes to furthering your career.

**VIRGO (Aug. 23 - Sept. 22):** Someone may be in great need of your help this week; do whatever you can to lighten the burden. With time, you'll be repaid in an unusual and charming way. Use your intuition this week, especially when new ideas are put to you. You'll find your judgement, especially of people, is very reliable.

**LIBRA (Sept. 23 - Oct. 23):** Attempts to raise cash for a major purchase, such as a new car or home will be successful. But remember to hold your tongue until you're ready to make your move. Do avoid sharing any secrets you may have. If you fail to do this, it is unlikely they will remain secrets for long! Be especially wary of Aries men.

**SCORPIO (Oct. 24 - Nov. 22):** Pay careful attention to advice from an unexpected source this week — it could help you avoid making a serious mistake. Try not to be so rigid in your ideas. It's not fair to say you don't like sushi when you've never even tried it. There's a whole new world out there waiting for you to discover it.

**SAGITTARIUS (Nov. 23 - Dec. 21):** This could be quite a week for you. You'll make very good headway on some private goal you've been working on. And you'll find your social life has become very active. Do be wary of anyone who comes to you with a new scheme which requires your involvement, especially if a financial outlay is involved.

**CAPRICORN (Dec. 22 - Jan. 20):** If you've been down because life seems to be boring, why not do something to spice it up a bit? Step out of character, surprise your friends, and do something daring. You may have the time of your life. Career changes prove rewarding. Dip into the savings habit, it's a strong time for investments.

**AQUARIUS (Jan. 21 - Feb. 18):** You'll find that you take problems in your stride this week, particularly on the domestic front, when a small crisis, involving a younger member of the family, seems likely. Careerwise, those in authority bring some innovative ideas that will soon pay off. Experiment in the kitchen; seafood is an excellent choice.

**PISCES (Feb. 19 - Mar. 20):** Cash reserves may appear to be strong, but there does appear to be some need for caution. Take special care in your involvements with people you have any business dealings with — examine any new proposals very carefully. Friday's a very good day for any special purchase you've got in mind.

### Your Birthday This Week — The Next 12 Months:

If there's one phrase an Aries should memorize, it's this: Think before you act. If you haven't learned it by now, you will in this coming year. Weigh out the pros and cons of every decision you make; especially the financial ones. Try to observe a Libra friend's decision making process; it could prove aggravating, but you might learn something. The fall will be a very happy time for you; just remember to keep that temper under control. A long-lost friend will return into your life.
