**Bug invasion coming to the mall**

Purple bird-eating spiders, giant walking sticks and deadly scorpions from all over the world will be visiting the Milton Mall during an exhibition of "The Incredible World of Bugs."

The new exhibit is being released by one of Canada's foremost entomologists, John G. Powers.

The exhibit includes "Giants of the Bug World", as well as the unusual, the deadly and the beautiful. It will also feature the world's largest moth, according to The

Guinness Book of World Records. Rare and unique bugs from places such as the Amazon, New Guinea, Madagascar and the Congo will all be on display.

The mall hosted a similar exhibit last year and the response was excellent. "Kids really like the bugs," say mall officials. "We had teachers bringing their classes in here and the kids just loved it."

"The Incredible World of Bugs" will be on display at the mall from Thursday, May 14 to Saturday, May 16.
