Week Ahead Horoscope

Forecast Period: May 17 - 23

ARIES (Mar. 21 - Apr. 20): You're social life should be fun, but don't be tempted into splashing your money around too extravagantly. Any romantic entanglement just now is likely to be fraught with anxiety and will lead to a final let-down if you are not careful with how you handle such matters. Tact and diplomacy are needed when dealing with relatives and intimate friends.

TAURUS (Apr. 21 - May 21): You get that restless feeling — you're longing to be free from work, and thinking about what you want to do in your spare time. But it would be best to leave social entertainment to chance, as you may be in for interesting and unexpected opportunities. Not a good time for financial investments.

GEMINI (May 22 - June 21): You'll be giving up the spotlight to co-workers as you keep busy in the background; your sole aim this week is simply to get through it! If your energy level is down, you may want to consider a healthier diet. New romantic encounters seem likely.

CANCER (June 22 - July 22): This could be a very profitable week for you. It's a good time for dealings with people at the top, for business meetings and for board meetings. For female Cancers, this is an especially good week for seeking out friends of your own sex. Financial gains possible towards the end of this week.

LEO (July 23 - Aug. 23): If you've been planning to do any travel over the weekend, you'd better check up on any arrangements you've made, as it looks as though you might have overlooked some important detail. Delays are possible due to some industrial action, perhaps in connection with transportation. Everything to do with work should run smoothly, however.

VIRGO (Aug 24 - Sept. 22): You may be eager to discuss ways and means to whittle down your financial commitments, but the other people concerned could be raising objections. In fact, it looks as though a lot of arguments will take place before anything is finally settled.

LIBRA (Sept. 23 - Oct. 23): You may be paying too little attention to what you are doing and what is going on around you this week. Bring your mind back to present surroundings, and make sure that work does not suffer from careless mistakes. You may be kept in suspense for letters or phone calls you're expecting, but there is no need to worry.

SCORPIO (Oct. 24 - Nov. 22): You will find that peaceful working conditions enable you to leave everything in good order by the time you decide to end the week's toil. This is a very good week for shopping; bargains are there for the asking. You've got plenty of energy in reserve too, for lively entertainment in the evenings.

SAGITTARIUS (Nov. 23 - Dec. 21): Keep your ears alert for useful information — people around you will have much to say that will be of help to you if you are seeking new sources of income. Your partner, or a close companion, seems to be in an especially lively mood, and is full of suggestions for entertainment.

CAPRICORN (Dec. 22 - Jan. 20): Maybe you normally find it difficult to express in words just how much you care for the people nearest and dearest to you, but now's the time to make this clear to them in other ways. So give free rein to generous impulses to please them.

AQUARIUS (Jan 21 - Feb. 19): With prospective plans for an out of town trip, you will need to have things well organized at home; give them your special attention now. If intending to spend the weekend away from home, don't leave arrangements to the last minute. Friends could be in need to help — you'll know how to comfort them.

PISCES (Feb. 19 - Mar. 20): Pisceans never have any trouble putting themselves in others' positions, so you'll be able to understand if family members seem somewhat edgy or unnecessarily worried about money. Be a little careful of long-range plans and be sure to double-check any arrangements, especially after midweek.

Your Birthday This Week — The Next 12 Months:

You will finally come to terms with an issue that has been plaguing you. A few other longterm problems will also be resolved. A shared experience, probably around fall, will bring you and your family closer together. Keep a tight hold on finances, and don't get involved in uncertain investments. Love will be found at an upcoming social event.
