

Week Ahead Horoscope

Forecast Period: May 24-30

ARIES (Mar. 21 - Apr. 20): You are always the "idea person" and, as such, wonderful and unexpected situations crop up — this week is no exception. Single Arians may get a set-back on the romantic front while those who are married might find their partner or children the source of concern, but all will be straightened out by the week's end.

TAURUS (Apr. 21 - May 21): Your tendency to be stubborn has gained you much respect, but it has also caused some valuable friendships to be destroyed. Don't let your foolish pride get in the way this time, or you'll find yourself very lonely. A Libra of the opposite sex lightens up your gloomy mood.

GEMINI (May 22 - June 21): Get out and have fun on Monday and Thursday. Romance is in the air. Be sure, however, not to overdo things as your work may suffer if you don't get enough rest. Towards the end of this week, there will be a need to discuss some special plans with a loved one; perhaps over the proposed purchase of some major household item, or even a new home.

CANCER (June 22 - July 22): Don't keep putting off making that important phone call any longer! You've waited long enough — call Tuesday or Wednesday, if possible, and you will get a pleasant surprise. Later in the week, a friend or relative may need your help or advice.

LEO (July 23 - Aug. 23): You may come face to face with some domestic problems during the start of this week. If you are unsure what action you should take, seek the advice of someone who is "older and wiser." You could meet up with an old flame and re-ignite the spark; just make sure you know what you're in for.

VIRGO (Aug. 24 - Sept. 23): Restrictions at home and at work lift during the opening days of this week, so you now can go after your goals. Make decisions about money matters around mid-week; remember to consider all options. Romance blossoms late in the week, but don't rush into anything without careful thought.

LIBRA (Sept. 23 - Oct. 23): Study your financial situation carefully; there may be some need to cut back on one or two things, but on the whole, finances are somewhat better than you thought. A visitor cheers you up when you're feeling depressed on Wednesday or Thursday. Social activities will dominate towards the later part of this week.

SCORPIO (Oct. 24 - Nov. 23): You may take a long journey that will prove both successful and rewarding. A tempting job or promotion may be offered around midweek. But you may not like the people that you'll have to work with, and you may decide against accepting. Near the end of this week, you'll encounter an embarrassing situation during a social gathering, but you'll still have fun!

SAGITTARIUS (Nov. 23 - Dec. 21): Job decisions will almost certainly affect your family, so be sure to seek their opinion before taking the final step in any career moves. An older person can help you get what you want. Relax whenever you have the opportunity; your mind needs a rest. Meditation should be considered, if you don't already make use of this source of tranquility.

CAPRICORN (Dec. 22 - Jan. 20): Teamwork will be vital this week. But don't allow personal differences to interfere with your plans. A valuable gift could come your way, but probably not before Wednesday. Treat it carefully. Your social life is likely to become active later in the week; many friends will want to be with you.

AQUARIUS (Jan. 21 - Feb. 19): Some unexpected hitch in your plans may occur on Monday or Tuesday, but try not to get too frustrated. Things will turn out better than you thought. Avoid losing your temper around mid-week; be as patient and cheerful as you can. A small gamble pays off towards the end of the week but, if you're not careful, you could lose a big one.

PISCES (Feb. 19 - Mar. 20): This is a good week for new relationships, so if you're single, get out and mix with the opposite sex as much as possible! An unexpected invitation to a party will lift you out of the rut on Tuesday or Wednesday, so accept it even if it means you've got to cancel some previously made arrangements.

Special course for pregnant teens

A new session of seven prenatal classes geared for pregnant teenagers will begin next month.

Offered by Young Parents Support Services, the classes address concerns and needs special to pregnant teens.

Being part of a group with other teens gives them a chance to share their feelings and discuss their fears, said Susan Stuart of the organization. Participants discuss what it's like to be a pregnant teen as well as a teen parent, and what options they have.

Besides preparing for labour and delivering, and taking a hospital tour, group members learn about community resources and assistance available for teen parents.

The first three classes are for expectant mothers only and the coaches — who may be the baby's father, friend, or relative — are invited to attend the last four classes.

Transportation to the sessions can be provided from anywhere in Halton. Pregnancy counselling is also available.

Open up the way
to everyone.
