## Week Ahead Horoscope

Forecast Period: June 14-20

**ARIES (Mar. 21 - Apr. 20):** There will be a quiet start to the week, but you'll suddenly find yourself involved in many activities. There could be a little celebration this weekend. A rather important decision you made a few days ago turns out to be the right one, despite your fears. There will be some important news from overseas as well. Not a good week, however, for starting new romantic links.

**TAURUS (Apr. 21 - May 21):** Don't jump to hasty conclusions about the activities of a friend — all will be revealed in a day or two, and it would certainly be wrong of you to prejudge the situation. Be ready for interesting developments in your relationship with an acquaintance. It's a good time for spending some time with close friends.

**GEMINI (May 22 - June 21):** You can now make good headway on a project you've been involved in — and you'll get some help with it from a close friend. Listen carefully to any advice you're offered because it could put you in a direction toward major success! Socially, you're in for a quiet time which will give you the opportunity to catch up on some domestic chores.

**CANCER (June 22 - July 22):** There is going to be a lot going on this week and it looks like you could be in the center of some social activity. Any home entertaining done this weekend will meet with great success. Try not to panic if you see things are not going quite to plan — all will work out in the long run.

**LEO (July 23 - Aug. 23):** Things will go well for you, just so long as you are diplomatic when dealing with people. It might be important to get support from friends this week — especially where outdoor activities are concerned. You will find that you are in great demand in the next few days.

**VIRGO (Aug 24 - Sept. 22):** You may be involved in an embarrassing situation in the next few days, but it will be something you'll look back on and laugh at. All your hard work will start paying off, and you may have some extra cash to play around with.

**LIBRA (Sept. 23 - Oct. 23):** Do all you can to influence the events around you, rather than just letting things happen to you. Plan things more carefully — and stop daydreaming about things which you really ought to be actively involved in. If you stay focused, you will make a success of most activities. There will be an easing of the worries you have had regarding money matters.

**SCORPIO (Oct. 24 - Nov. 22):** You've been working too hard for too long, and it's time to take a break. Remember, "all work and no play makes you a dull person." Kick back, relax and try to have fun for a change. Work will still be there when you come back. Try to eat a more healthful diet.

**SAGITTARIUS (Nov. 23 - Dec. 21):** Don't let a loved one's mood swings get to you. No one should be able to dampen your happy-go-lucky spirits. Try to be more sensitive to other people's feelings. A little white lie is sometimes better than telling the truth. Others probably don't take criticism as well as you do.

**CAPRICORN (Dec. 22 - Jan. 20):** Learn how to express yourself! It's not fair to those you care about to take your problems out on them. If you don't tell your loved ones just how much you care and how much they mean to you, you could end up a very lonely person. Listen carefully to a Sagittarian's message.

**AQUARIUS (Jan 21 - Feb. 19):** This will almost certainly be a busy week for you, even if things start out quite smoothly. You could find the pace speeds up considerably later on, and you may find it difficult to tackle every project. Your social life gets very interesting, though — and you'll be pleased about some special arrangements that have been made on your behalf by a good friend.

**PISCES (Feb. 19 - Mar. 20):** Some early disappointments this week will be more than adequately compensated for. Don't rush into any major changes without checking all the details very carefully first. There could be some romance in the air later on!

### Your Birthday this Week — The Next 12 Months

There will be many positive changes this year. The only thing you will have to do is keep sight of your dreams. Many of them will come true. Don't settle for less — in love or career — because good things come to those who wait. If you're thinking of making a major purchase, consult a financial expert before signing any contracts. This fall, a Libra of the opposite sex will add new meaning to your life.
