

Dufferin rewarded for escarpment-friendly act

A friendly act by Dufferin Aggregates to the needs of hikers earned the Milton quarry operator an award from the Ontario Heritage Foundation.

The Friends of the Niagara Escarpment awards were presented in conjunction with Environment Week during a reception at the Royal Botanical Gardens in Burlington June 4.

The bi-annual awards are aimed at promoting the importance of vol-

untary private-sector contributions to achieving the goals of the Niagara Escarpment Plan.

Dufferin Aggregate's contribution was in the form of a footbridge. The company provided assistance in the design and construction of a footbridge which enabled the Bruce Trail Association to re-route its trail over public lands. The company has also committed to assisting with the development of an interpretive display at the site to provide information about the geological history of the area.

Also among the award recipients were the volunteer directors of the Halton Region Conservation Foundation who were recognized for a successful campaign that raised close to \$700,000 for the de-

velopment of educational projects at Crawford Lake Conservation Area near Milton.

More than 30 years of service as chair of the Halton Region Conservation Authority earned Brock Harris a Friends of the Niagara Escarpment Award. Mr. Harris, now retired from the authority board, was directly responsible for the acquisition of more than 6,000 acres of prime Escarpment property for public parkland.

Other award recipients were: Christine and Michael Kirby of Toronto; Dr. George Francis of Waterloo and Douglas Robertson of Waterloo.

The Ontario Heritage Foundation is an agency of the Ministry of Culture and Communications.
