## Week Ahead Horoscope

Forecast Period: July 12-18

**ARIES (Mar. 21 - Apr. 20):** Be very cautious about financial matters, or anything connected with business. Other people will have the upper hand in any deals you consider — and you may find something has been kept secret from you. Don't be rushed into decisions. It might be a better idea to concentrate more on the social side of life, where things look positive, especially for the unmarried.

**TAURUS (Apr. 21 - May 21):** It's a good week for anything creative, especially where work at home is concerned. Any at-home entertaining you do now will be a great success. Be a bit cautious this weekend. It looks as if you could come up against some friction involving someone very close to you if you don't watch what you say and who you say it to.

**GEMINI (May 22 - June 21):** If you have some ambitious plans in mind, now is a very good week to put them into operation. You'll find it easy to get started in the next two or three days — but don't make any hasty judgements. Saturday could see some special romancing! It's a good time to start a new relationship.

**CANCER (June 22 - July 22):** There are some good times ahead for you, and you'll find you're thinking of branching out into something new. Approach it with confidence, and you'll find everything works out well. Socially you're going to be busier than usual — and you'll have to make some pretty difficult choices.

**LEO (July 23 - Aug. 23):** A few problems that have been burdening you will finally be resolved. Watch what you say to others. A simple joke on your part could be perceived as a terrible insult to a more sensitive person. Try to use more tact. Do not give in to an extravagant impulse.

**VIRGO (Aug 24 - Sept. 22):** Don't meet people's objections head on this week; try to reason with them instead. If you start anything new, don't let your enthusiasm mask the possible pitfalls. If you keep a realistic attitude, all will go well. Don't let pride get in the way of matters of the heart.

**LIBRA (Sept. 23 - Oct. 23):** Routine matters dominate your time right now. You've got to see them through so you can sort things out for next month. Trust your own judgement where business and money is concerned — you're entering a lucky period right now! Don't be afraid to stick your neck out and take advantage of every opportunity that comes by!

**SCORPIO (Oct. 24 - Nov. 22):** You may find some problems cropping up soon, but they're nothing you can't handle. Discuss things with others and don't be afraid to accept advice. Money difficulties won't last very long, but you should avoid taking on any new commitments. If you have an important decision to make, take your time to think it through.

**SAGITTARIUS (Nov. 23 - Dec. 21):** You'll find it an easy time for getting along with friends and the family. But be careful not to deal with them too casually, because you may be wrong in some of your assumptions. An attractive offer could be coming your way in the next day or two. It may not present itself in the most orthodox way — so be on your toes to spot it.

**CAPRICORN (Dec. 22 - Jan. 20):** It is going to be a fairly busy week for you, especially at work. However, if you've been under a lot of pressure recently, you should get some recognition for your efforts around now. The weekend's going to be pretty hectic, with the main emphasis on travel. Be prepared for a few delays.

**AQUARIUS (Jan 21 - Feb. 19):** Resist the temptation to make big changes — even though things don't seem to be going too well for you right now. You might upset people. Try to concentrate on the lighter side of life. And remember, Thursday could turn into a lucky day for you. Keep smiling and all will be well soon.

**PISCES (Feb. 19 - Mar. 20):** It's going to be a rather quiet and routine sort of week for you, but some very good news is on the way about an old friend you've been rather worried about. You'll get some special pleasure out of an investment you've just made. A special invitation will be coming in the mail.

**Your Birthday This Week — The Next 12 Months:**

Your caution has kept you out of trouble, but it has also kept you away from great opportunities, too. If you really, really want something, don't deny yourself. There's a lot of change ahead for you, but remember, you are the master of your own fate!
