

Armed man faces three charges in domestic dispute

A frightened Milton woman called police from her home Monday night after a man threatened to shoot her.

The woman's 31-year-old common-law husband has been charged with threatening, weapons dangerous to the public peace, and assault.

A domestic dispute at the Charles Street home, which was "smashed up" during the ordeal, escalated out of control at 11 p.m., police said.

A man, armed with a gun, threatened to kill a 24-year-old woman. A suspect was arrested after he jumped off the second-floor balcony of the home, police said.

Assault charge

A Milton man was charged with

POLICE BLOTTER

assault after an incident at a friend's home on No. 10 Sideroad.

A 22-year-old Brampton woman and a man were visiting mutual friends when the woman was assaulted. Police said a man followed the woman when she went into a bedroom to get her purse. He pushed her onto the bed and held her arms above her head. A 24-year-old Ontario Street man was charged.

Licence plate recovered

A 19-year-old Coulson Avenue man faces several charges after the

Milton OPP stopped a car on the Hwy. 401 westbound ramp to Guelph Line Sunday afternoon.

An Ontario licence plate which had been reported stolen was discovered in the vehicle at about 3 p.m., said OPP Cst. Dave Thomas.

The suspect was charged with possession of stolen property, driving with an improper licence, and failing to produce insurance.

Cordless phone stolen

The regional dump under construction on Highway 25 was the target of thieves who stole a cordless phone from the job site office sometime on the weekend. The phone was valued at about \$100.

Gerry Brooks asked that Milton try to have well monitoring done on her property. Halton Region is responsible for that, so Milton could only suggest such a course of action to regional government.

Milton's acting planning director, John Fior, said that might be a tough sell to regional government because it would probably be impossible to prove what had caused any problems with Ms Scott's well, should they occur. The only way to nail down an overall picture of the area water supply would be with a comprehensive underground water analysis, and Halton has balked at doing that for two years now due to the recession, despite Milton's prodding.

Mr. Sales' subdivision approval passed council unanimously, although more than 30 conditions, many of them environmentally related, were included.
