## HOROSCOPE

Forecast Period: Sept. 13-19

**ARIES (Mar. 21 - Apr. 20):** This is a good time to be planning how to improve your financial situation. Your opinion may be sought concerning a community problem, and your ideas might reinforce a neighbour's good opinion of you. A difficult situation could be sorted out with the help of a Libra friend.  
**TAURUS (Apr. 21 - May 21):** Romance is in the air now, and you might find it sensible to apply your energies to a domestic matter which, in recent weeks, have received little attention. Have you had a dental checkup recently? If not, then now looks like a good time to make an appointment.  
**GEMINI (May 22 - June 21):** If you are involved — or interested — in health education, physical fitness training or active sports, you may find some new piece of equipment drawn to your attention, and may be persuaded to part with some of your hard-earned cash. You're likely to find it was a good investment.  
**CANCER (June 22 - July 22):** A quiet weekend is recommended. Complicated plans could cause you more stress than pleasure. A nice dinner at home with a few close friends might turn out to be most enjoyable weekend option. Romance looks promising, and you may be contacted by someone from your past who wants to see you again.  
**LEO (July 23 - Aug. 23):** This weekend could be a bit tricky. Try to avoid direct confrontations with loved ones. Tuesday or Wednesday, you could be pleasantly surprised to

find that you've been invited to do some judging at a show or contest in your neighborhood.  
**VIRGO (Aug 24 - Sept. 22):** You may be in a particularly receptive frame of mind to assimilate factual information, so this is an especially good time to study for an exam. Financially, it looks like a rather delicate week, so you'll need to go careful with spending.  
**LIBRA (Sept. 23 - Oct. 23):** An afternoon meeting during the week could bring a new relationship that may lead to an intense romance. A minor mishap may upset future plans, but it seems that you won't miss out on anything terribly important. This is an excellent time to take a trip overseas.  
**SCORPIO (Oct. 24 - Nov. 22):** There could be a minor disaster this week but, thanks to your resourcefulness, it could work to your advantage. The advice you give to your friends now could be of great help to them. Even if it isn't taken, the generosity will not go unnoticed. Young children could give you some very happy times now, and their company may well take more of your time than any other activity.  
**SAGITTARIUS (Nov. 23 - Dec. 21):** You may see some old friends and have an opportunity to regain some of the vitality which may have escaped you for the last year or so. Do not neglect important details, especially where work is concerned. Try to be more organized in your thinking.  
**CAPRICORN (Dec. 22 - Jan. 20):** You may spend the weekend bickering with a loved one, but things should calm down eventually, and you should be able to look forward to some enjoyable times. You could find new reserves of energy in creating a new working team or partnership, and this could keep you busy for the next few months. Towards the end of the week, a friend may come to mean a great deal more to you than you realized; a much closer emotional relationship may develop.  
**AQUARIUS (Jan 21 - Feb. 19):** An element of surprise seems to figure largely in your social life this week, and you might be fortunate enough to meet someone from the past at an unlikely spot in unusual circumstances! Romance is promising, but your initiative may be required in order to get things going.  
**PISCES (Feb. 19 - Mar. 20):** You have a generous nature and it is quite common for people to borrow your belongings. But this weekend your generosity may backfire — and you may have to put a strain on a relationship to get a material possession back. Don't take this personally; not everyone is as good-natured as you.
