## These Guys Can Lower Your Electric Heating Bills

Roy Pettit

Adam Taborek

Living in Campbellville? Using electricity to heat your home? If so, Adam and Roy would like to talk to you about lowering your electric heating costs. You see, natural gas is coming to Campbellville and it's bringing some sizeable savings.

As it has been for most of the last decade, natural gas is the most economical form of energy. While electricity costs have grown by almost 75 percent and inflation by 48 percent, the cost of natural gas is nine percent less than it was in 1983.

As our Sales Representatives, Adam and Roy can help you take advantage of these savings by helping you select the right natural gas furnace or water heater for your home. They can also provide you with a variety of home comfort accessories such as natural gas fireplaces, humidifiers, electronic air cleaners, electric air conditioners and energy-saving set back thermostats.

So, if you're looking for savings, look for Adam and Roy. You'll find them at your local Union Gas office, just call (416) 335-7310. They'll be happy to visit you and give you the whole story on natural gas.
