# Oakville mayor tells realtors to vote 'Yes' in referendum

By BARB JOY Special to The Champion

Don't let your feelings towards Prime Minister Brian Mulroney affect your vote in the October 26 referendum, warns Oakville Mayor Anne Mulvale.

"I don't care what part of the anatomy you think the prime minister is, you can get him in the next election. But don't use the referendum as a popularity vote," Mrs. Mulvale told members of the Oakville, Milton and District Real Estate Board at a recent meeting in Milton.

Mrs. Mulvale and Milton Mayor Krantz were guest speakers at an Ontario Home Week luncheon held in Milton by the Oakville, Milton and District Real Estate Board. The meeting provided an opportunity to honour former president and longtime board member Terry Hansford.

Mrs. Mulvale adjured her listeners not to "pout" on Oct. 26 and not to use the referendum to vote against political figures they didn't like.

"Canada is far too important to play those games," she said to applause.

Noting the referendum isn't perfect, she maintained it provided a basis for constitutional reform and should be considered in the context of other legislation such as the Bill of Rights. Building a constitution is a progressive process that must be built on hope.

'Hope is important and we have so much to be hopeful for," she said. "Those without hope perish."

Mrs. Mulvale also emphasized the power of positive thinking. Rather

done, she exhorted her listeners to consider what can be done and to use the many opportunities that, despite the economic woes of the country, still exist.

She ended by urging her audience to vote "yes" in the referendum.

people who built this nation who disposal. had hope, vision and faith. They didn't fumble the ball for us."

Mr. Krantz centred his speech around urban growth, especially that of Milton's. While he was relatively satisfied with his town's growth rate of 2.5 per cent last year, he speculated that this year's growth probably would be disappointingly lower.

"The competition (between cities) is fierce to bring in people," he said. 'And we're not living in an ideal marketplace right now."

Behind his remarks was the watersewage problem Milton is facing and one which he said he had outlined to the real estate board on several occasions. Simply put, the

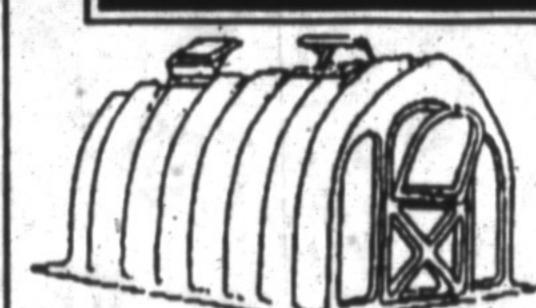

than dwelling on what can't be amount of water necessary to sustain growing population may not be generated from its current source of water, the Walker's Line wells and the Kelso Conservation Area. And more effluent pouring into Sixteen Mile Creek from more residences could upset a delicate balance be-"We have a responsibility to the tween water availability and sewage

> Noting that a better water supply is needed, Mr. Krantz favoured bringing the water from Lake Ontario via a pipe extending from Bronte and along Hwy. 5 to Milton. Estimating the cost at more than \$100 million, the question to be asked was: Who would pay for it? As a tentative solution, the mayor currently favours splitting the cost proportionately between the province, region, Milton and developers.

> Long term planning for new urban developments in Halton is now being addressed in Phase II of a study called the Halton Urban Structure Review which the province is currently reviewing.

# Devastated by the crash of '87?

So was Adrian.

Adrian's car crash in 1987 left him a quadraplegic. After 12 months of exhausting rehabilitation, he left Lyndhurst in a wheelchair. Changed forever, but full of hope.

Lyndhurst is the only rehabilitation centre in Canada that deals solely with spinal cord injuries. Over half of Lyndhurst's patients are under the age of 25. This devastating injury breaks spirits as well as bodies.

One day we hope to rebuild spinal cords. Until then we're rebuilding lives. But we can't do it alone.
