Important Information For Parents

In January 1993, the new Child Tax Benefit begins.

What is it?

The Child Tax Benefit combines the existing Family Allowances and tax credits for children into a new tax free, monthly payment. It also includes a new supplement for low income working families.

The benefit provides more money for children - \$2.1 billion more, over five years - and targets money to those families who need it. In fact, most families will receive more money than they do now.

What are the improvements?

The benefit is fairer and simpler. It is designed with a very important goal in mind - to ensure that the money reaches the families who need it, as quickly as possible.

- The monthly payments are tax free.
- Because benefits are delivered each month, parents no longer have to wait

until the end of the year to claim child tax credits.

- There is no need to make annual applications - benefits are automatically calculated from the tax returns you file each year.
- Benefits can be adjusted quickly when there is a change in your family, such as the birth of a child.

What do I have to do?

Watch your mailbox.

A special information package is being sent to people who currently receive Family Allowances. Please read it carefully. It tells you how the benefit is calculated and how much you will receive if your family qualifies.

If you have not received your information package by the end of November, please

call this toll-free number: 1-800-387-1193. (For service in French, 1-800-387-1194).

In January the new monthly benefits will begin.

Please remember to file your 1992 income tax return to continue to qualify for the Child Tax Benefit.

The Brighter Futures Initiative.

As part of the Federal Government's Brighter Futures Initiative, the new Child Tax Benefit is an important step toward providing a brighter future for our children. By working together, we ensure that every Canadian child looks forward to a brighter future.
