HOROSCOPE

Forecast Period: November 22-28

ARIES (Mar. 21 - Apr. 20): If you are involved in creative work you should be very successful. You will be full of enthusiasm about making home improvements and/or decorating enhancements. You may even be taking steps to purchase a new home. You will develop a closer bond to your partner as mutual plans are discussed.

TAURUS (Apr. 21 - May 21): It's unlikely that this will turn out to be a significant week, but you have no difficulty in dealing with everyday matters. Now's the right time for going ahead with any business transactions you have in mind. Discussions going on at home in the evenings make for a happy atmosphere. A younger family member will ask you for advice.

GEMINI (May 22 - June 21): By this time you're probably full of anticipation for the upcoming holidays. Many Geminis have creative hobbies, and yours is most likely in full swing now as you love to give holiday gifts that you created yourself. This will keep you quite busy, but you will have some extra time to share with close friends and family.

CANCER (June 22 - July 22): Many Cancers experience the "holiday blues." They start to wonder who really cares for them and what life is all about, anyway. There's always a danger of being so crabby and gloomy that nobody wants to be around them. Don't let this happen to you! Loosen up, you could have a lot more fun!

LEO (July 23 - Aug. 23): Money matters are going to be much emphasized in the coming days. Negotiations at work should turn out in your favor. Your bright ideas make you more creative and romantic. Although you hate doctors, you must make that dental appointment before it's too late!

VIRGO (Aug 24 - Sept. 22): Keep long-range aims in mind and plan accordingly. It will be worthwhile cutting down on luxuries in order to steer more cash into investments. Virgos taking on marriage or parenthood will have good luck. Try to be a little more personable.

LIBRA (Sept. 23 - Oct. 23): You feel enthusiastic about achieving more success at work in the future and, with the right approach, you could land a super job or promotion. Socially, it's an exciting week with people from the past reappearing in your life. Adventure fills your evenings!

SCORPIO (Oct. 24 - Nov. 22): Don't count your chickens before they're hatched. Put more gumption into your efforts to steer your career ahead. This is a time when hopes might come to nothing because you're relying too much on wishful thinking. Confusion abounds in legal matters, dealings with in-laws, education and travel.

SAGITTARIUS (Nov. 23 - Dec. 21): Rely on your own resources for pleasure. Steer clear of friends as they might ask for favors which you are unable to grant, and this might lead to mutual embarrassment. If there's anything special that you want to do, Wednesday would be a good time for new adventures.

CAPRICORN (Dec. 22 - Jan. 20): The company of friends will be a boon if your morale needs any boosting. But if you are discussing plans, minor problems will have to be overcome before they can be set in motion. Try to keep sudden impulses under very tight control, especially on Wednesday and Thursday evenings. A very interesting Aquarius will enter your life (and confuse it a bit, too).

AQUARIUS (Jan 21 - Feb. 19): Life has much to offer you, and you will become bolder and quite ambitious. You should attempt to spread your interests and aims much further than you've been doing lately. This would be an excellent time to keep up on the contacts you've recently made. Something you said to cheer up a friend serves as inspiration as well as the comfort you'd intended.

PISCES (Feb. 19 - Mar. 20): You really must try to unwind and take it easy or you will become irritable. Don't let a workmate's behavior upset you. If you have been looking for a new job, you could hear something during the early days of the week which helps steer you in the right direction. Remember that nothing comes easy and you have to fight for what you want.

Your Birthday This Week — The Next 12 Months

You really must learn to stay focused when dealing with business matters. Your tendency to leave things until the very last moment will backfire early this year unless you change your ways. It would be wise to consult with a financial expert. Romance will have a great deal of significance for you, especially at the beginning of the New Year. There will be a lot of travel in store for you throughout the year.
