

## Anticipating Santa

All heads were turned to try to get the first glimpse of Santa Claus who came to town Sunday for his annual parade downtown. His sleigh was led through the streets by a procession of marching bands and floats representing hours of work on behalf of the community groups, schools and businesses which participated. Once again Miltonians proved to be creative with their entries and the many volunteers who help organize the event proved efficient. The event went off without a hitch and thousands of spectators were along the parade route to show their appreciation.
