Week Ahead Horoscope

Forecast Period: December 13-19

ARIES (Mar. 21 - Apr. 20): It's not like you to worry too much about finances when there are more important matters — like fun — at hand. But money and material possessions appear to be on your mind at the moment. Maybe you're finding that you are having to pay too much for what you consider to be of little value.

TAURUS (April 21 - May 21): The holiday festivities and preparations will probably take up a great deal of your time this week. You'll find yourself in a happy and generous mood. Just beware of overspending. If you're married, this week could bring you a great success. Your partner has some good news to celebrate with you!

GEMINI (May 22 - June 21): The holiday season is probably your favorite time of year. You love traditions, and most likely are looking forward to the ones you share with family and friends every year. This week will be somewhat hectic, but you will accomplish everything you set out to do. A letter from a distant relative puts you in a good mood.

CANCER (June 22 - July 22): You appear to be on the move this week. A trip to another town is quite likely. A relative may need your help with some perplexing matter. You will give very good advice. Someone celebrating an anniversary could ask you to join in the fun. You are in for a good time.

LEO (July 23 - Aug. 23): Keep tight control on your spending this week. Be especially careful if there are things you want to buy for decorating your home. During midweek evenings your thoughts will most likely turn

to planning for the holidays. You will be the life of the party this weekend.

VIRGO (Aug 24 - Sept. 22): An invitation to stay at someone else's home seems likely. Do accept; it would be good for you to get away. You need to relax and forget all your worries. With a little fun, your outlook on life will become fresh and renewed. These will be good news concerning financial matters.

LIBRA (Sept. 23 - Oct. 23): Everything seems to be going your way lately. There's a lot for you to look forward to, and your energy level is at an all-time high. A strange twist of fate really works out in your favor. Just make sure that in all your joyfulness, you don't get caught up in a spending spree!

SCORPIO (Oct. 24 - Nov. 22): If you don't slow down your extremely busy pace, you will become seriously run down. Do only what you have to, and save the rest for later. Take some time out to enjoy the simple things in life. A little R & R will go a long way. Don't make promises you can't keep. People would rather know the truth than have false hopes.

SAGITTARIUS (Nov. 23 - Dec. 21): It would be advisable to go it alone, as the help promised by a friend will not be forthcoming. You will make a new acquaintance, probably around the 18th, with whom you have a lot in common. This could be linked with a mutual friend from the past. A Leo of the opposite sex is interested in you. Lying to spare someone's feelings may get you in more trouble than you think.

CAPRICORN (Dec. 22 - Jan. 20): Try to be more appreciative of the efforts of loved ones. Your tendency to take others for granted may cause some problems in a valuable relationship. Make sure you make your feelings known: A project you've been working on is turning out to be much more rewarding than you had anticipated. A business associate puts in a good word for you.

AQUARIUS (Jan 21 - Feb. 19): Someone could be pressing you to take on some extra responsibilities. Don't be too hasty to accept their proposals — you have enough to take care of at the moment. Your social schedule is also somewhat hectic. Don't accept invitations if you know you can't attend. An old friend will come to you for advice.

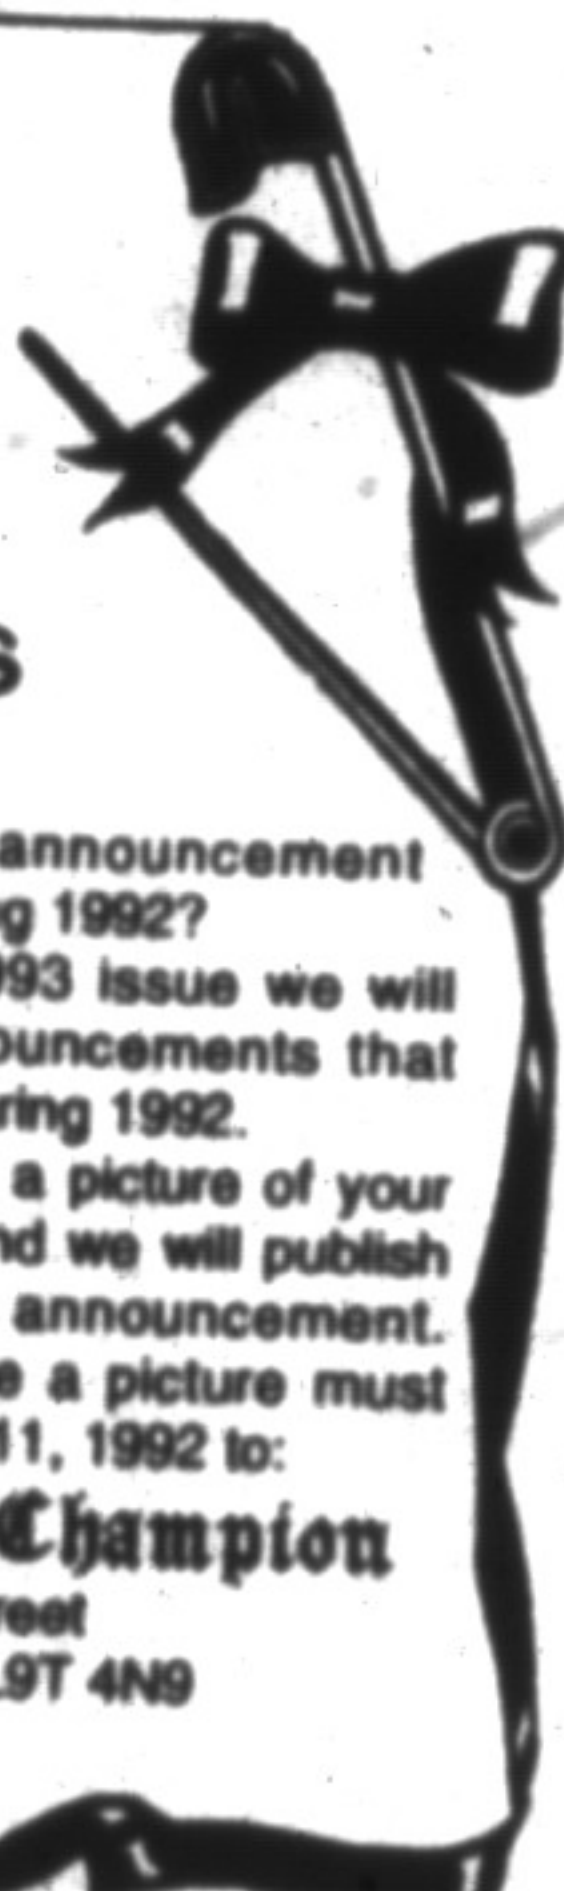

PISCES (Feb. 19 - Mar. 20): This week may start off on a fairly quiet note but will almost certainly become more lively as the days pass — and you will take a leading part in all that is going on. Keep a firm control of cash and try not to be tempted into spending on luxuries. You will receive a surprise visit from an old friend.
